

Lifestages diagram

Explanations: (as text under each area)

- survival: learning skills, education, gain experiences
- growth: grow & build your future
- consolidate: simplify your life, consolidate and protect your future
- protect: retirement and protecting your legacy and family.

(can use shading in the main graph to depict the stages.)

Life Stage Concept

Represent the different life stages / linking them to everyday life and financial life stages

First stage = survival

Second stage = growth / build your future

Third stage = simplify your life, consolidate your life's work & protect what you have

First stage = retirement & family

This is an example we found. Not exactly but similar concept.
