

Dr. Todd Dickerson, DMD Phoenix AZ  
***Photobiomodulation- Using Science to Dramatically Increase Profitability and Efficiency in Orthodontic Practices***

Dr. Dickerson received his bachelor's degree from Illinois Wesleyan University. He is a graduate of Baylor College of Dentistry in Dallas, Texas and completed his Orthodontic Residency at West Virginia University. He is a two time recipient of Research Fellowship grants from Baylor College of Dentistry.

He has served on the Board of Directors for the prestigious Schulman Study Group. As part of an ongoing commitment to his profession, Dr. Dickerson reviews orthodontic cases for the Arizona State Board of Dental Examiners. He has also served on committees for the National Association for Dental Research and the Arizona State Dental Association.

Dr. Dickerson's area of research in recent years has centered in accelerated orthodontics with experience in both vibration and LIGHT accelerated orthodontics. He offers an in-depth presentation on not only the science and benefits, but also practice integration and efficiency.
