

# USA PEST DEFENSE

Before you move into your new home, wouldn't it be nice to know that you will be the only ones living there?

Spiders, Ants & Roaches may have moved in ahead of you, and they are just waiting to get into all of your nice things.

So why deal with playing catch up to the dirty infiltrators when they can be terminated before you arrive?

**USA PEST DEFENSE**  
has the perfect solution to the bug pollution.

We start with a perimeter treatment to prevent any new bugs from moving in. Then we move inside for an interior treatment that kills any bugs that were already making your home their home.

**No Contracts to sign ever!**  
**Comes with a 90 day guarantee.**
