12	OK	OK	<p>Graphic - the shelf contents need to look like books and be consistent in style. Perhaps use and modify the graphic on page 9 for this, but keep all book colours the same eg brown. From a scale point of view there are 17 Books on the OT Historical, 5 books on the OT Poetic , 17 Books on the OT Prophetic, 5 on the NT Historical, 21 on the NT Doctrinal, 1 on the NT Prophetic. Please note Revelation should be Prophetic not Poetic.</p> 	OK

23	OK	OK	Some of the text in these graphics is too small to read clearly. So I suggest we drop the triangle graphic completely to create space. Crop off the bottom paragraph on the main graphic (starting - "The Ark ratio...") and then make the main graphic as big as possible.	OK
24	OK	OK	Due to readability can you change the white text - might have to go to the same colour as the middle section although this would make it less interesting graphically. Or can you strengthen the font in some way to resolve the issue?	OK
25	OK	OK	OK	OK
26	OK	OK	Again readability is a problem at this size, especially the white and yellow fonts. Will it need redesigned to fix it?	OK

Also

Where the script font (as mentioned below re the chart) is used on some of the supplied charts, it is hard to read at this scale. Can you change them on all relevant charts?

Page 13

A line jump has occurred here in the original, can you bring the word "host" up to previous line and the next two lines only come up one line.  
Throughout this graphic the script font is hard to read. Can you change it to something more readable?
