Save Big, Do Good

Question: What happens when a business is structured to deliver substantial savings to customers AND meaningful donations to causes with each purchase?

Answer: Good Turn Travel. You save about 30% on car rental from the top brands and we contribute to charity with each purchase.

We are starting with car rental.

If you need to rent a car for any purpose, go to goodturntravel.com to see our amazing rates from the biggest brands you know, trust and are already using.

In most cases we can save you about 30% over the best published rates you can find online. We say “about 30%” because that is the savings we target, but prices can vary by season and destination. In some cases we can save you more in others a little less. We show you all the best rates straight from the car sites compared to our special rates. If we are not better than the competition (rare), then you don’t have to book with us.

On each rental we automatically contribute 10% of our profit to charity. We are starting with top graded charities from Charity Watch. We look for charities that flow 90% or more of their contributions to doing great work. If you have a legally registered charity that you would like us to consider for funding, please sign up, log in and click on the “charities” button of our website. We can issue a code that will funnel contributions from each rental made using that code to your charity. This is a perpetual fund raiser that requires nothing more than spreading the word.

Our prices cannot be published on the Internet. You must sign up using a valid name and email to gain access.

There is no obligation. We charge no fees to join. We will not market to your email, or sell it to others.

What is the downside to trying us out?

We hope that our great rates coupled with our support of good causes will make us your preferred rental site and you will tell all your friends about it. We can make a real difference if this grows to a large group of patrons that book with us each year. This is a great solution for small business owners who utilize rental cars. What business wouldn’t like to put 30% back in their pocket and support good works?

Over time we plan on adding savings on other services. The more you save, the more good we can support!

Thanks for helping us out!
