

Oratene Antiseptic Gel

Recommended for serious oral conditions such as stomatitis, gingivitis and periodontal disease. The addition of potassium iodide creates the hypoiodite ion to make this gel bactericidal, fungicidal and partially virucidal. Contains the most potent enzyme formula in our oral care line, yet is safe and gentle on sensitive, irritated mouths. 1 oz. tube.

Oratene Toothpaste Gel

Clear gel form provides maximum enzyme contact to inhibit harmful odor-causing bacteria and remove plaque biofilm. Gentle formulation relieves, soothes and protects mouth tissues against dryness, irritation, inflammation and redness. Ideal for cats that don't drink much water. 2.5 oz. tube.

Oratene Water Additive

Flavorless concentrate added daily to drinking water provides a safe, healthy way to conveniently clean pet's teeth, freshen breath, kill germs and remove plaque without brushing. There is no simpler way to care for pet's teeth. For complete protection, use in conjunction with Toothpaste Gel. Now available in 4 and 8 oz. bottles.

Oratene Breath Freshener

Freshens and maintains a healthy mouth by inhibiting harmful and odor-causing bacteria and removing plaque biofilm. 4 oz. bottle with mister delivers a fine focused spray.
