

Advantages of Using Chara Regenerative Medicine Products:

- ✓ Safe
- ✓ Consistent Concentration
- ✓ Ease of Use
- ✓ Minimally manipulated according to FDA guidelines
- ✓ High cell potency and quality
- ✓ More comprehensive cell profile with high concentration of MSCs
- ✓ Rich in cytokines/growth factors and extracellular matrix

Stem Cells:

- ✓ Have innate intelligence
- ✓ Can home in to areas of injury and inflammation
- ✓ Deliver a tailored response to promote repair, healing and regeneration

Chara
Biologics' regenerative
medicine products are sourced from
a FDA registered & inspected, cGMP
compliant laboratory, which strictly follows
AATB (American Association of Tissue
Banks) guidelines, meeting the
highest of industry
standards.

Chara Biologics, Inc. is committed to
providing cutting edge regenerative
medicine therapy of the highest quality.

(30 million/c)
for all injections
CharaFlex
(10 million/c)
for joint injections

Let the Joy of Healing Begin

Chara's regenerative medicine products provide
a rich source of stem cell types including MSCs
and hematopoietic stem cells (HSCs).
They are crucial for tissue regeneration,
with powerful anti-inflammatory, immune-
modulatory and revascularization effects to
maximize patients' healing potentials.
