What are people saying about Ophthalmology Training?

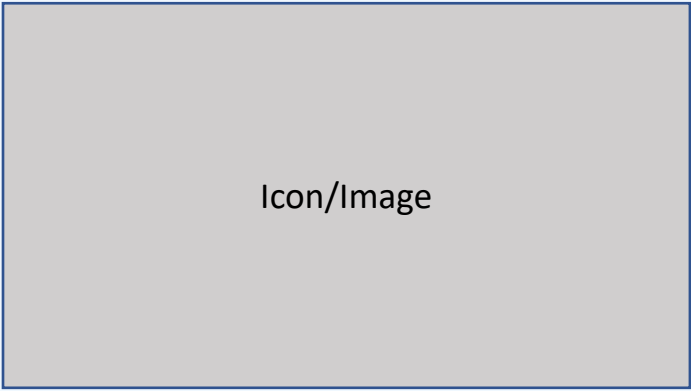

Mr John Ferris MB ChB FRCOphth

Consultant Ophthalmologist and Head of the School of Ophthalmology, Severn Deanery HESW

What sets this website apart are the superb 3D animations which enhance the accompanying text more effectively than clinical videos or photographs. I would whole heartedly recommend it to medical students, optometrists, GP’s, casualty doctors and ophthalmic nurse practitioners, both as an introduction to ophthalmology, but also to refresh their knowledge of core ophthalmic examination techniques and conditions.

Want to try Ophthalmology Training for free?

No credit card details required. It's completely free for 3 days.

We give 10% of our profits to charity

We believe it is important to give something back so from 2018 we will donate 10% of every subscription to a selected charity somewhere in the world which works to help prevent sight loss and treat eye diseases.
