ABOUT MEC SHIPYARDS

AFLOAT REPAIRS

MEC REPAIRS is focused exclusively on *topside and afloat repairs*, the company provides complementary repair services of the highest capabilities to the customers of the Shipyard.

The company offers alternatives to dry-docking vessels in case of emergencies, thanks to their quick access to piers, at the Pacific and Atlantic sides of the Panama Canal, and also the anchorage with their very own fleet.

MEC STORES is a *leader ship chandler* in Panama. The company supplies all sorts of goods for all type of vessels, from Cruise Ships to Drill Ships. We also have a vast experience delivering products for the daily use of a vessel and materials for shipyard repairs and voyage requisitions.
