Unsure if your business fits? Contact us.

We built a simple project manager, that is easy to setup and has the most important options, without the stuff that you don't need.

Save office time with Tasktify and become more efficient.

We know first hand how hard it can be to manage a busy craftsmen business.

Here is how Tasktify can help:

Easy Setup
Create new projects in seconds

Task Lists
Split projects into tasks and tick them off one by one

Simple Scheduling
What and when it's due, who's responsible

Inventory Management
Never forget to reorder on time

Calendar
Have an eye on all upcoming dates

Web-based
World wide access, from any device that runs a modern browser

Make managing your projects simple and fun again.

The Project Overview
Have all your Projects organised in one place. See exactly what is done, what is due, where you're at and who's responsible.

The Task List
Split projects into tasks, delegate employees, track the progress and tick them off one by one.

The Inventory Section
Add new inventory items, track the amount, add vendors and know when to reorder.

Missing an important feature?

We are listening to our users. Ask us to add a feature and it might already go live on the next update.

"

Tasktify has made a huge difference on my day-to-day struggles in keeping all our projects organised. I have decided to make the software available to the public, as I see a big need for a simple project manager, not only in the cabinet maker industry, but all tradesmanship businesses.

In the long-term we want to build a community around Tasktify and help business owners grow their businesses without getting stuck in endless paperwork and headaches.
