

How to install your new fonts

Windows 7 or Vista

1. Close your running programs.
2. Right click the zip file and choose **"Extract all."**
3. Right click on the OTF font files and choose **"Install"**.
4. Open your desired program. Your Letterhead Fonts will begin with the preface "LHF."

Watch the video tutorial here:

www.letterheadfonts.com/tutorials/fontinstall/windows7fontinstall.php

Windows XP

1. Close your running programs.
2. Right click the zip file and choose **"Extract all."**
3. Place the font files into your **"Fonts"** folder. (The "Fonts" folder is located in the Control Panel.)
4. Open your desired program. Your Letterhead Fonts will begin with the preface "LHF."
