

CLAIMS RECOVERY, COMMUNITY ENRICHMENT

The ideal funding vehicle for your healthcare system to give back to the causes close to your heart!

An estimated \$125B is lost by healthcare systems each year due to underpaid claims. With up-front costs waived, Wellness Wishes' Claims Recovery Program is the perfect way to easily and efficiently reclaim lost revenue for your healthcare system, while generating much-needed funds for your organization's philanthropic endeavors! All in 4 easy steps...

1

KICK-OFF CALL You, along with your Wish Recovery Services Team, will determine an agreed-upon timeline for data retrieval.

2

IMPLEMENTATION Your Wish Recovery Team can work with you either remotely or on-site to retrieve all the data necessary for analysis. After retrieval has concluded, a timeline for analysis completion will be established.

3

CLAIMS RECOVERY After the analysis is complete, your Wish Recovery Team will work to recover underpaid \$0-balance claims on your behalf. Once a settlement has been reached, your organization will receive 50% of the collected funds.

4

COMMUNITY ENRICHMENT Your organization will receive an additional 10% from funds collected on underpaid claims for philanthropic effort(s) of your choice.

Imagine all the lives that can be changed in your community by implementing this no-risk program in your organization today!

**Claims Recovery, Community Enrichment
guarantees a way to fund wishes granted daily!**

Wellness Wishes, a non-profit organization, is delighted to be able to assist healthcare organizations in creating funding vehicles for their philanthropic endeavors and community outreach programs.

Through this unique program, we're able to help you identify and recover, potentially large amounts of funds that are invaluable to both your organization's bottom lines, as well as contributions to your community!

- \$50,000 up-front cost **WAIVED**; there is zero risk.
- Analysis of your organization's \$0-balance accounts going back 12 months. These are not billing code errors, collections, PHI, modifiers or denials - simply accounts which have been "closed according to contract."
- Your Wish Recovery Services Team ensures data collection, implementation and analysis are simple and efficient, with minimal time invested from your staff.
- Timelines for data retrieval, implementation, analysis completion and recovery period are established throughout the program to keep you apprised of action steps, milestones, criteria of success and final result.
- Analysis and recovery are non-threatening to payors; relationship is always conducted with professionalism and respect. In fact, payors allocate money to reserves for these situations and are eager to make organizations whole in the event of uncovered underpayments.
- In addition to funds recovered, the analysis provides valuable intelligence in terms of contract updates and management, as well as payor-payee relations.

Contact Wellness Wishes today. Your claims are expiring daily. We'd love to help you stop those expiring claims, and reclaim lost revenue for your healthcare system, while generating much-needed funds for your organization's philanthropic endeavors!
