

Vivanano

■ Something like this to be designed

This is a range of nano formulas that can be used on many applications to prevent damage from water or weather.

If you look at this website these people are doing a similar product

www.liquiproof.co.uk

We want to take this product worldwide so we want a logo that will stand the test of time.

This is what happens when you use this on fabric or shoes these are not my images I have just got them from google images to give you an idea of the application.

TEST CONTRAST

WINE

OIL

WATER

Viva Definition

an exclamation of acclaim or [approval](#)

Nano Definition

a combining form with the meaning "very small, minute," used in the formation of compound words (*nanoplankton*); in the names of units of measure it has the specific sense "one billionth" (10^{-9})

Nano Technology Definition

noun

1.

a technology executed on the scale of less than 100 nanometers, the goal of which is to control individual atoms and molecules, especially to create computer chips and other microscopic devices.

Nano products have been scientifically developed by scientists, they are a new technology that can revolutionise protection and cleaning.

We are looking for a fresh logo

Thinking it could combine some level of viva which could be quite bright and vibrant

Otherwise thinking it could combine some level of water droplets or a science type molecules joined, maybe water drops joined as molecules

Prefer the colour scheme not to be blue.

This product will be bottled for various applications, I want a logo that can be easily used on packaging

- Home Textiles
- Home Wood
- Home Glass & Ceramics
- Home metal
- Marine fabrics
- Marine Wood
- Marine Glass
- Marine Wood and Plastics

I am attaching some logos that are quite striking for the word viva but our word is **vivanano**

Note the images below are not mine I am just showing them as a reference for some ideas

VIVA TECHNOLOGY

JUNE 15-16-17 / PARIS 2017

It could combine some level of science type logo but I want to the logo to be too busy or too boring

These products do not contain harmful chemicals

FUTURE
NANOTECH

nano tech

International Nanotechnology
Exhibition & Conference
