

Home Page

Main Menu.
Secondary text is
the Title setting.

Secondary menu.
Possibly drop-down.

Want to stretch
image similar to
what you see at
<http://productops.com/>

This provides a good
idea of where we are
going with the home
page. Can provide
image with or without
text. Font is Londrina
Solid. Have version of
logo at top with name
integrated.

Not a hard and fast
design...only meant
to show hero unit.

NG - Event App Main

The screenshot shows the Orgora Event Dashboard for the Decatur Book Festival. The dashboard is divided into several sections:

- Header:** Includes the Orgora logo, navigation links (About Us, Features, Blog, Press), and user links (Register, Login). A search bar is also present.
- Left Sidebar:** Contains navigation links for Main, Team, Applications, Logistics, and Analytics. The Applications section is expanded, showing links for Exhibitors Dashboard, Edit Application, Submissions, Food Vendors, Sponsors, Performers, Volunteers, and a Create New button.
- Event Dashboard:** The main content area, titled "Decatur Book Festival". It features a table of Active Applications categorized by Exhibitors, Food Vendors, Performers, and Sponsors. Each category shows the number of Submitted and Accepted applications.
- Social Feed:** A section for social media activity, currently empty.
- Recent Activity:** A section for recent activity, currently empty.
- Alerts:** A section for alerts, currently empty.
- Event Contributors:** A section for event contributors, currently empty.

A yellow callout box with a red arrow points to the Applications table, stating: "Better as a graph... Although this format permits easy view of incomplete applications as well, sort of an onboarding approach".

| Active Applications | |
