# 7 TEMPERED Glass

Made of imported high-quality glass, explosionproof steel, 2.5D arc edge design and perfect fit, smooth touch, Surface hardness up to 9H, scratch-resistant, high transmittance, clear and vivid display effect.

## Install Guide

Please use included alcohol swab and the microfiber fabric to clean the LCD screen before installation.

Peel the protective layer off the adhesive side.

Carefully align the glass to the screen and slowly apply it onto the screen.

Press center of the GLASS lightly then adhesive part will spread over all parts smoothly.

## CAUTION

When removed for reuse, the adhesive properties might wear off to an extent. It's generally not recommended to reuse the GLASS if it's been applied.  
Using excessive force when installing or removing the screen protector may damage the product.
