

R E S T Y L E D B Y T A L A S P E C I A L V E H I C L E S

The XSV packages have been created to take one of the best selling vehicles and add passion to enhance this vehicle beyond the mainstream.

The Ford Ranger has been a phenomenal success for Ford so our challenge was; how do we make the best, better!

The XSV package has been developed to personalise the Ranger into a statement of style.

Driving an XSV equipped Ranger says something about your desire for perfection and expresses your personality.

The XSV is distinguished with exterior graphics viewable from every angle.

20 inch wheels and all terrain tyres feature colour coded inserts enhancing the charcoal theme.

The front of the ute is what really puts this vehicle into a class of its own. The 'X' shaped day-time running lights and Mustang inspired driving lights skillfully flow into the 'honey-comb' grill.

The hand-built leather accented interior, feature 'honey-comb' inserts and upgraded race inspired sports seats which takes the XSV into an altogether different league.

So, go on, build your own, express yourself and step away from the restrictions of an 'off the shelf' vehicle.

X S V P A C K A G E

KEY LOCKABLE

LOW PROFILE

Low profile design, front cover that is flush with the rolling cover. Streamlined appearance can be installed with most sport bars. Easy clamp-on fit. Key lockable in any position.

ROC TRIFOLD SECURITY COVER

Easy on or off in less than six minutes, three piece design, no tools required, drive with the cover in the open or closed position, sleek appearance improves fuel economy, tri-fold design, interior LED lights. Locks the rear tray.

BEDMAT SOFT TRAY LINER

Made from the same material as our famous BEDRUG, but the BEDMAT fits perfectly over the factory inbuilt hard liner. Save your knees, protect your gear from sliding. 100% Polypropylene, an ultra tough work surface.

ROC WORK LIGHTS

- Pair of 7inch LED ROC round lights* including 70mm tube mounting brackets.
- 22 inch LED ROC light bar* including 70mm tube mounting brackets.
- 36 inch LED ROC light bar* including 70mm tube mounting brackets.

**Lights are legally classified as 'work lights' and can not be used on public roads.*

ROC SPORT BAR

- Design follows the format of the cabin, resulting in a harmonious fit and look.
- Carbon steel ensures strong and extremely high resistance to corrosion.
- Modern unique plastic coating sidebar design.
- Made out of 70mm steel tubing.
- It can be installed in conjunction with the ROC trifold security or retractable covers.
- 3 years warranty.
