

Are you a business owner?

Do you need help with such issues as:

- ✓ Running your business instead of letting it run you.
- ✓ Getting your QuickBooks files set-up correctly.
- ✓ Starting a new business.
- ✓ Easing your payroll obligations.
- ✓ Getting financial statements for your business.

Work Smarter, Not Harder ...

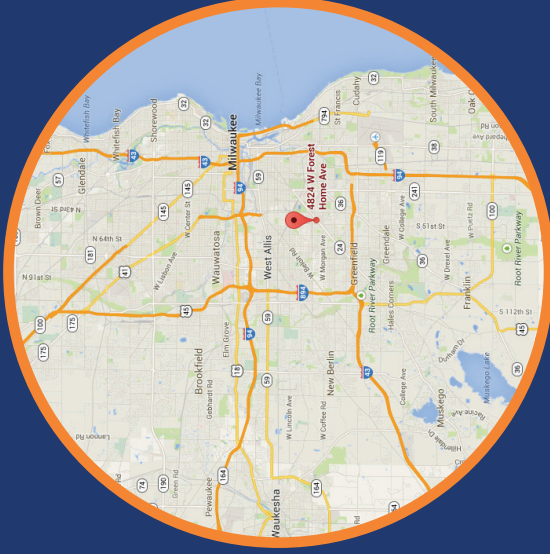

Financial Information is the lifeblood of your business. As a business owner, you need the right information, at the right time. If your financial records are set-up wrong, everything else will be wrong too.

Why not have it one right the first time. You'll feel better knowing your financial information is accurate. Wouldn't you rather focus on building wealth for yourself, rather than the administrative agony of poor recordkeeping?

We can help you. We have been honing these skills since 1995 in Milwaukee. You need a low cost, affordable solution to help you. We know what you need and we deliver it.

Why Choose Us?

- QuickBooks Certified ProAdvisor since 2007.
- Accountant
- Tax Preparer
- Since 1995

Over the years we have gathered feedback from our clients and applied it to give to our clients the best possible service.

"My accountant is never there."

We are happy to book appointments in the evenings and week-ends as well as normal business hours.

"My returns were late again"

We understand the importance of doing things on time, the IRS are now targeting those who submit late, they will be at greater risk of getting an enquiry or investigation. Also the penalties are getting much more strict. We guarantee to submit on time and will pay for any late filing fees if we are responsible for the delay

"The fees were much larger than the original quote given"

We offer a fixed price service and always agree to fees prior to doing work. We are extremely competitive and will always aim to charge a fair fee.

"Its to much hassle to move"

Not necessarily, we will write to your previous advisor and obtain the relevant information we require, if we can save a significant amount of tax then this should not be a factor.

Services
