

About Our Furniture

Here at All Things Cedar we take great pride in designing the quality of furniture that is attractive to the eye, ergonomically sound, comfortable and meets our customers expectations.

We offer a full compliment of designs in Western Red Cedar, Java Teak and Wicker Rattan.

Our Adirondack Chairs, Patio Tables, Trellis Screens, Arbors, Wishing Wells and Swings will not only make your outdoor living space more beautiful, they will provide a personal sanctuary for you to enjoy your surroundings in comfort.

The key factors we use in designing comfortable and long lasting patio furniture are basic in nature. We start by using only clear grade Western Red Cedar; this means no knots, cracked or stressed, or warped wood. One very important feature of our cedar is to kiln-dry to a moisture-content level that ensures each wood component remains stable and will not shrink or warp. For accurate reproducibility components are cut using jigs, then hand-crafted for snug joinery and finely, sanded to a 100 grit finish. Edges are given a round over providing uniform appearance and a silky smooth touch.

In addition to being aesthetically pleasing and very comfortable, our Cedar furniture is designed to last for decades, even when left outside in the most extreme conditions. We achieve this in part by using a wood that is resistant to insects and mold. Western Red Cedar fibers contain naturally occurring organic compounds called (thujaplicins) These oils are responsible for that richly distinct cedar aroma that smells so good to humans but more importantly makes the wood highly unattractive to insects that would otherwise attack the wood and cause rot and decay.

All Things Cedar is a family-owned and operated corporation that offers high quality outdoor furniture at affordable prices. Since our inception in 1997 we have successfully grown our business through hard work, wise choices and unwavering commitment to our products and customers.
