

As a child, Ana Maria Martinez-Stumpo would spend quality time with her Father by helping out in his furniture manufacturing company. She was delighted to be taken along on project installations to exciting places like the Bellagio in Las Vegas. What began as a fun after-school activity evolved into a passion for quality craftsmanship and unique furniture & interior/exterior space design. By the age of 19, Ana Maria was ready to make this into a true family business and join her father as a co-owner in what is now Pacific Hospitality Design, Inc. Today, the L.A. based company is thriving in the Hospitality and Residential trade industries.

Ana Maria loves the creative process, and seeing a design go from concept to reality. Understanding the procedure and requirements for manufacturing has added a level of sophistication to her work.

Ana Maria Martinez-Stumpo is Vice President and Furniture Designer of Pacific Hospitality Design, Inc. She has over 20 years of experience in the furniture manufacturing industry ranging from design concept, manufacturing, production to research and development. Ms. Martinez-Stumpo holds a Bachelor's degree in Fine Arts in Interior Architectural Design. Despite her busy career, recently she has become a contributing writer for **Bask** a luxury lifestyle magazine captivating readers in Southern California, as well as an interior designer for the 2013 & 2014 Philharmonic House of Design in Orange County & Featured designer at Philharmonic Pasadena House of Design 2015. Ana Maria makes time to be involved with community and professional organizations. She is an active member of ASID, USGBC, The Furniture Society, she has volunteered thru the Fashion Institute of Design & Merchandise Chairing Styles Program and has also appeared as an expert in furniture design and manufacturing on an HGTV Design Show. Ana Maria enjoys mentoring and educating students as a guest speaker in career development classes at local Interior Design Colleges & Universities. She loves the challenges of meeting the clients' specifications, budgeting, working with classic and current furniture design styles inherent in all hospitality & residential projects.
