Automation That Works For You

Control4 is a market leader in automation and is one of the most sought after brands all over the world. Backed by years of experience and strong R&D, Control4 is designed to give you a solution that is tailored to suit your lifestyle.

Find out more about Control4, what it can do and how everything works better together.

Get started today at www.control4.com.

Reliability and Ease of Use

Having done the hard yards in the early days of the automation industry, Control4 has “been there, done that”, ironing out the bugs and issues that plague many other competitors. The Control4 system is possibly the most reliable on the market and easily the most user friendly. This comes from not only driving innovation and design, but listening to their clients to develop a solution that Control4 customers truly desire.

The Control4 user interface is a pleasurable place to be - responsive and fluid, intuitive yet complex, comprehensive yet simple, the user experience is one of the best on the markets.

A Complete Solution, Designed For You

There are a lot of automation companies on the market. However the majority only focus on a specific area of automation. Why would you want a system that can only control your lights, or control your heating or your entertainment? You may as well not bother with integration as you will still have several different systems,

The difference with Control4 is the ability to integrate everything you have in your life, right now. Control4 not only develop their own automation products, but work with authorised partners to provide the complete solution, including Sonos, Sony, Autonomic, Cisco, and 250 others.

Chosen By The Best

Star City Casino in Sydney, Versace in the Gold Coast, The 4000 room Aria Hotel in Las Vegas - Control4 is chosen by the world's best for it's reliability, ease of use and the fact that Control4 provide the complete system

A Brand You Can Trust

A truly global brand built on a reputation of reliability and technical innovation, Control4 has proven time and time again they are one step ahead of all their competitors. They manufacture and develop the vast majority of their hardware and software in-house.

With over 10 years of experience in the automation industry and a hand-picked team with the highest levels of automation experience and training, Control4 is the safest and most reliable brand of automation in the world, and the only brand that your property deserves.

Audio

Play music throughout the house from any source in any area.

Entertainment

One remote to rule them all - distributed video and home theatre made easy.

Lighting

Set lighting scenes to greet you when you get home and turn off when you leave.

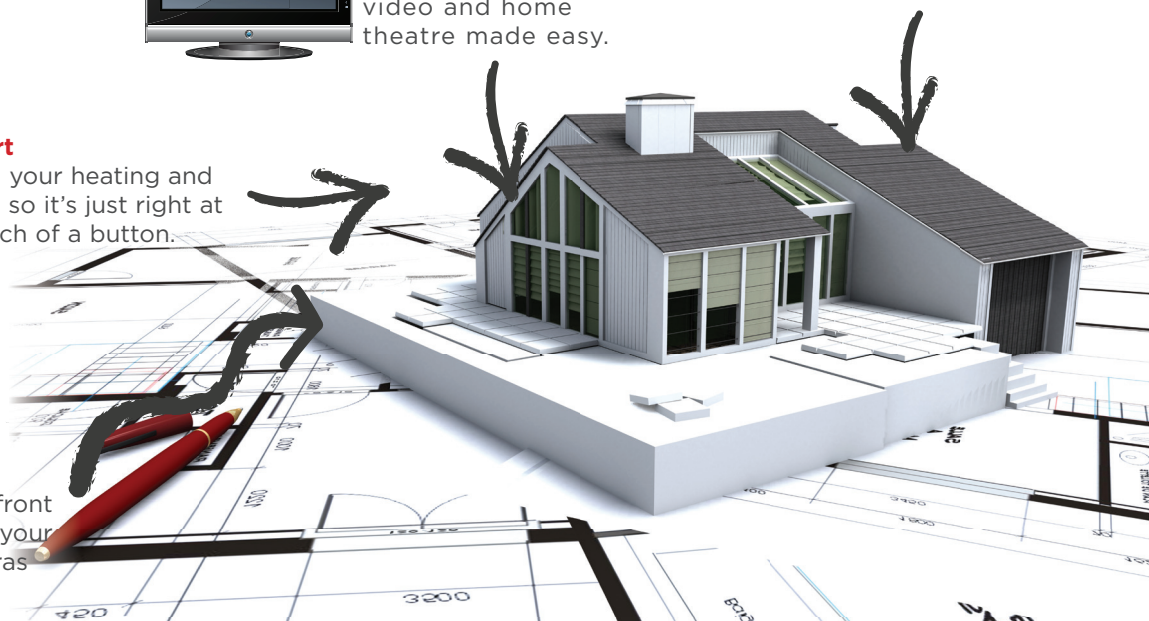

Comfort

Control your heating and cooling so it's just right at the touch of a button.

Security

Lock or unlock your front door, keep an eye on your house using IP Cameras

DID YOU KNOW?

1. Control4 is a public listed company, one of the few in the industry.
2. A truly modular system, you can start small with one room and expand to the whole house in your own time without having to recode the whole project from scratch.
3. In the last three years alone, Control4 has been awarded over thirty accolades from industry publications, including Manufacturer of the Year and Best Home Control System.
4. Control4 has strong retrofit and new construction offerings, which means whether or not you are planning a new home in the future, or want to get an automation system in to your property today, Control4 has the answer.
5. A Control4 smart home can be controlled and monitored by it's owner, giving you freedom and peace of mind.

A Nationwide Network of Qualified Installers

The rights to install Control4 systems can't be bought, it has to be earned. All Control4 qualified installers in Australia are put through rigorous training must be individually approved by Control4 to install the product.

This level of training needs to be in place so we can maintain a high level of brand recognition and performance, and to ensure our customers receive the automation system they deserve.

Energy Management

Control4 gives you the ability to reduce your energy footprint through extremely smart methods of controlling your home. Control4 enables you to increase the energy efficiency of your lights and appliances that will produce real results when you get your energy bill.

Research & Development

Control4 is one of the strongest players in the automation market, but it wasn't sheer luck that got them there. Control4 spend an enormous amount on R&D and have an extensive team of engineers constantly working on improving Control4's solutions of today and for the future.

If you are a Control4 owner, rest assured that your system will stay up to date for as long as you have it.
