Billy Joel: Piano Man Live!

This show is a **tribute act** to the iconic stadium sound of the original 'Piano Man' **Billy Joel**. With live 5-piece band - including live brass - and fronted by sensational piano-vocalist and musical director **Joe Revell**. Showcasing the full scope of the dynamic repertoire of Billy Joel, from beautiful ballads like **New York State of Mind** and **Just The Way You Are**, to the rocking up-tempo of **Movin' out** and **My Life**. This show has everything - from the tender and heart wrenching, to the exhilarating and foot-stomping.

It's a show that delivers on all musical levels; thoroughly entertaining, and with stagecraft of the highest quality. **50 minutes** of exciting, loud, Rock-and-Roll music, with all the songs written by one of the masters of his craft. These songs have been performed **around the world** to stadiums of adoring fans, and the **new arrangements** deliver on the signature 'piano man' sound.

This is the debut show produced by new company **Electric Wolf Productions**. Their mission is to blend exceptional stagecraft and high quality musicianship to put together the best in live music entertainment. As a frontman, **Joe Revell** has performed in function bands around the UK. A graduate of **St Andrews University**, he then moved to **Glasgow**, and was inspired to put together a show of **Billy Joel's** finest material as he has been playing piano-bar style gigs, and honing his skills as both a pianist and vocalist - much like the man himself!
