

Design a webpage(s) with three sections or three tabs or three pages. Match the design to the attached logo or use the colors in <https://troypoint.com/>

Webpage title: TROYPOINT App Dashboard

### Section 1 File Upload.

This section will show a list of files and provide a button to add, edit or delete the files. By default this section should show a list of files and provide a big plus button to add files. Each item in the list will have the following attributes.

- File name
- File description
- File icon
- Edit button
- Delete button
- Status button (a green or red check mark) in your design show a list of files with a green check button, and one or two with a red X or exclamation button. This button is used to indicate if the link is active or not.

### Add File Section

File name (single line text field)

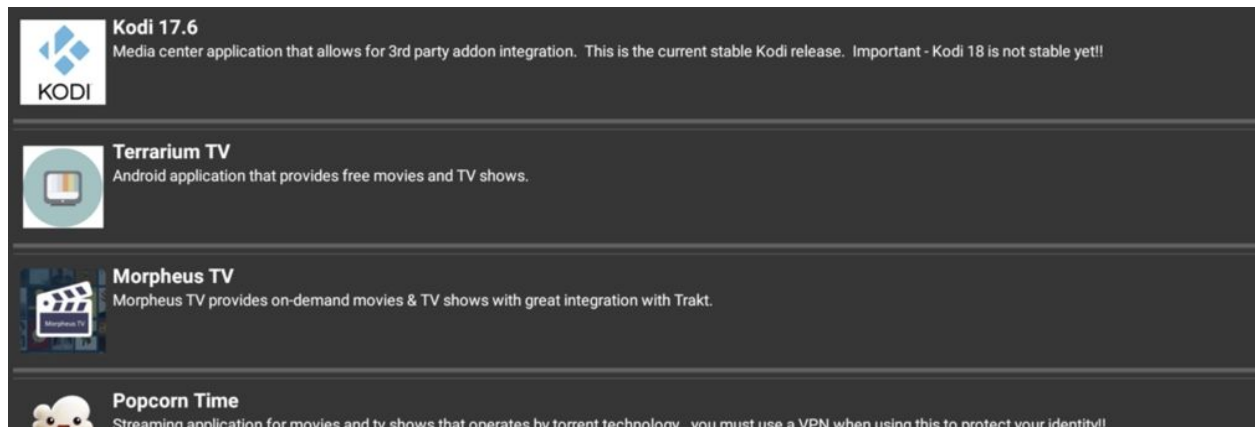

File description field (multi-line field)

File icon (picture upload button)

File upload (file upload button)

Submit button

Example of Section File list (this is a crude example, please design something better)

### Section 2 Video Upload

This is similar to the File list above, but instead of files, this list will show a list of video file names and provide a big plus button to add an entry. Each item in the video list will have the following attributes.

- Video name
- Video description
- Video thumbnail
- Edit button
- Delete button

#### **Add Video Section**

- Video name (single line text field)
- Video description field (multi-line text field)
- Video thumbnail (picture upload button)
- Video full image (picture upload button)
- Video link (single line text field)
- Playlist name (drop down menu)
- Submit button

### **Section 3 - Messages**

This section contains some multi line text fields that are used to enter messages. There is no submit button, each message should have the message title and then a multi line text field to enter the messages.

Here are list of message and each should have a multi line text box near to it, in your design use lorem ipsum to fill up the text field, limit line to 4 lines.

Welcome message (multi-line text field)

Welcome message line (single line text field)

Rapid installer disclaimer (multi-line text field)

Pop up message 1 (multi-line text field)

Video Playlist names (multi-line text field)
