

RAWCONNECT-QC

aspires to change the waste and risk paradigm in the life science industry.

We strive to make companies better stewards of their dollars and our environment to transfer benefit to them...**THE PATIENT**

OUR PLATFORM

- A virtual multi-vendor marketplace for the life science community to connect and transact pre-market and after-market materials and equipment
- Researchers, manufacturers, and original suppliers can create an account to buy, sell, or donate materials

> **Authentication and terms of quality**

> **Set up store**

> **Seamlessly transact and request for information**

> **Check out and sign**

- cGMP quality focused platform
- Part 11 compliant signature and account authentication
- Leverages industry auditing skills to facilitate compliant and transparent transactions
- Some of the best and industry vendors and software used

BENEFITS

- Reduce write-offs by selling excess and obsolete materials, equipment, spare parts, etc
- Buy quality materials at a reduced price
- Market materials if an original supplier
- Donate material to researchers
- Acquire donated materials
- Collaborate and consort to reduce supply chain risk such as mutual aid agreements, joint supplier audits, etc.

OUR PROMISE

A greener, more cost-efficient, and quality-driven supply chain through a collaborative life sciences marketplace.
