Aluminum Cans

The smart way to buy wine

- Non-breakable cans are safe at the pool or on the beach.
- Convenient 2 1/2 servings per can.
- Cans deliver 100% protection against oxygen, light, and other contaminants.
- Aluminum cans are the most sustainable beverage container.
- Aluminum cans are light weight and save transportation energy.
- The average aluminum can contains more than 50% recycled aluminum.
- On average, a recycled aluminum can becomes a new can in less than 60 days
