

The Rainbow Difference

Our Approach

Rainbow Child Care Center has developed their program to serve the needs of today's families by answering the dilemma many parents face: where to find quality childcare. As a family-oriented early learning center, Rainbow provides a quality "home away from home" experience. Our program enhances each child's development by offering a caring atmosphere combined with a structured curriculum.

As teachers and caregivers, our goal is to achieve a sense of continuity between home and school. We believe it is important for children to maintain a familiar and comfortable routine. Through parent/teacher communication, we individualize each child's care and learning opportunities.

We believe in helping children develop a positive self-image, sense of independence, and self-discipline through developmentally appropriate activities.

Quality and Rating Accreditation

At Rainbow Child Care Center, you can be confident that your child is receiving the best care and education possible. Our passionate teachers and research-based curriculum meet early childhood content standards and best practices.

Rainbow Child Care Center demonstrates a commitment to quality care and education through accreditation and quality rating systems. Accreditation and quality rating systems require compliance in rigorous early childhood education standards and guidelines for high-quality care. Pursuing accreditation and quality rating is voluntary, and demonstrates our ongoing commitment to meeting quality through excellence.

Safety and Security

At Rainbow Child Care Center, keeping children safe is our number one priority. We have taken all necessary precautions to ensure your child is safe at all times. Our security measures include:

- Handprint or number code entry systems
- Monitoring systems at some locations
- Check in/out computer system
- Classroom observation windows at some locations
- Staff uniforms and name badges
- Visitor/Solicitor/Tour Policy
- Secure entry and exit for facility and outdoor play areas
- 24-hour monitored fire systems
- Health Service Plan in place
- Risk Management procedures in place

Equipment and Facilities

Our school facilities typically consist of 10,000-13,000 square feet of commercial building space specifically designed to meet our strict performance standards, and ensure a safe and happy learning atmosphere for all ages. We utilize equipment based on its proven suitability for the age of the children in each classroom.

- Each classroom is designed specifically for our young learners. State-of-the-art equipment, child-sized furniture and developmentally appropriate toys and activities are provided. Classroom computers and early learning software provides great exposure to technology.
- Many of our facilities have an indoor gym with a wood-type flooring surface and padding on the walls. Modern movement and sports equipment ensure that daily trips to the fully equipped gym are safe and fun.
- Each of our facilities has safety-certified playgrounds that allow separate space for Infants/Toddlers, Young Preschool, Preschool and Pre-Kindergarten classes. All playing areas have exceptional playground equipment and AstroTurf or grass playing fields that can accommodate tennis, soccer, t-ball, basketball, or a putting green. All areas are completely enclosed by fencing with several exit gates.

Parental Involvement

Rainbow Child Care Center understands parental involvement is a crucial component to the success of a child's educational achievement. Research has proven that children are more successful learners when their parents are actively involved in their learning, both at home and at school. To support parents as partners, Rainbow Child Care Center offers an open-door policy allowing parents to visit and participate in our programs at all times, fostering a sense of openness and inclusion.

Rainbow Child Care Center's Parent Involvement Committee (PIC) allows parents to participate in the center by planning events that will benefit the overall quality of the program. Some of the group's initiatives include: networking with other families, learning opportunities for families such as workshops and trainings, special events, teacher recognition and development, community service projects, center enhancements, classroom volunteering opportunities and fundraising.
