

Introducing Studio Clement
& co founders

Rose Wilkinson
& Hannah Birtwistle

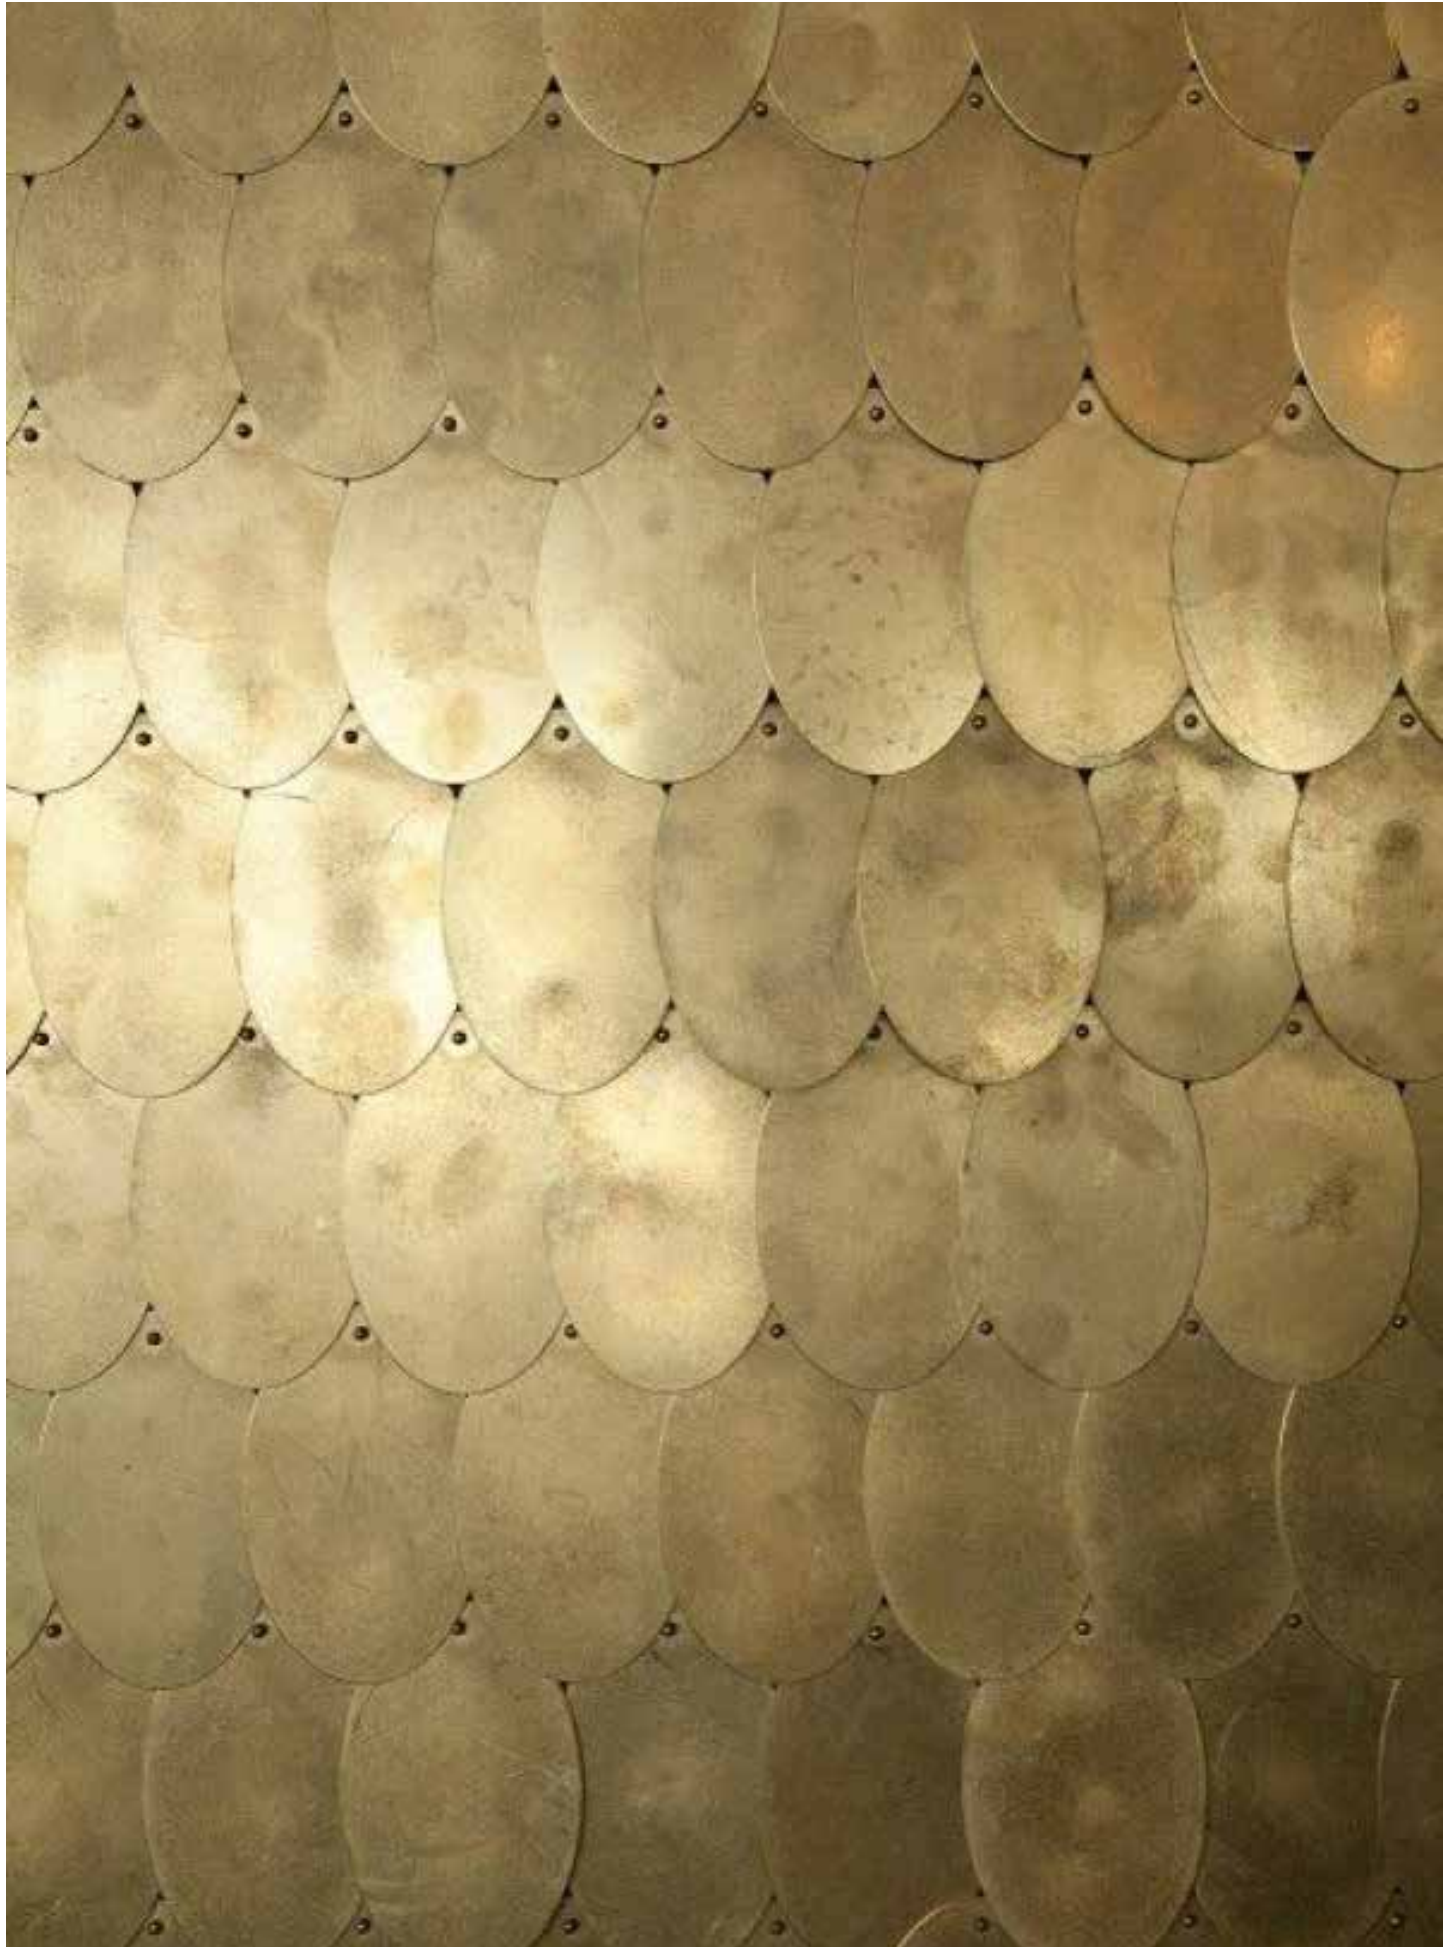

Our Vision

To create meaningful connections between people and their environment.

“We believe that a beautifully designed interior can transform your life, factors such as space, light and time all play their part but the most important element is a deep personal connection with the interior, the home.”

About Us

Studio Clement formed to create bespoke designs for the luxury market, specialising in private residences, residential developments and hospitality.

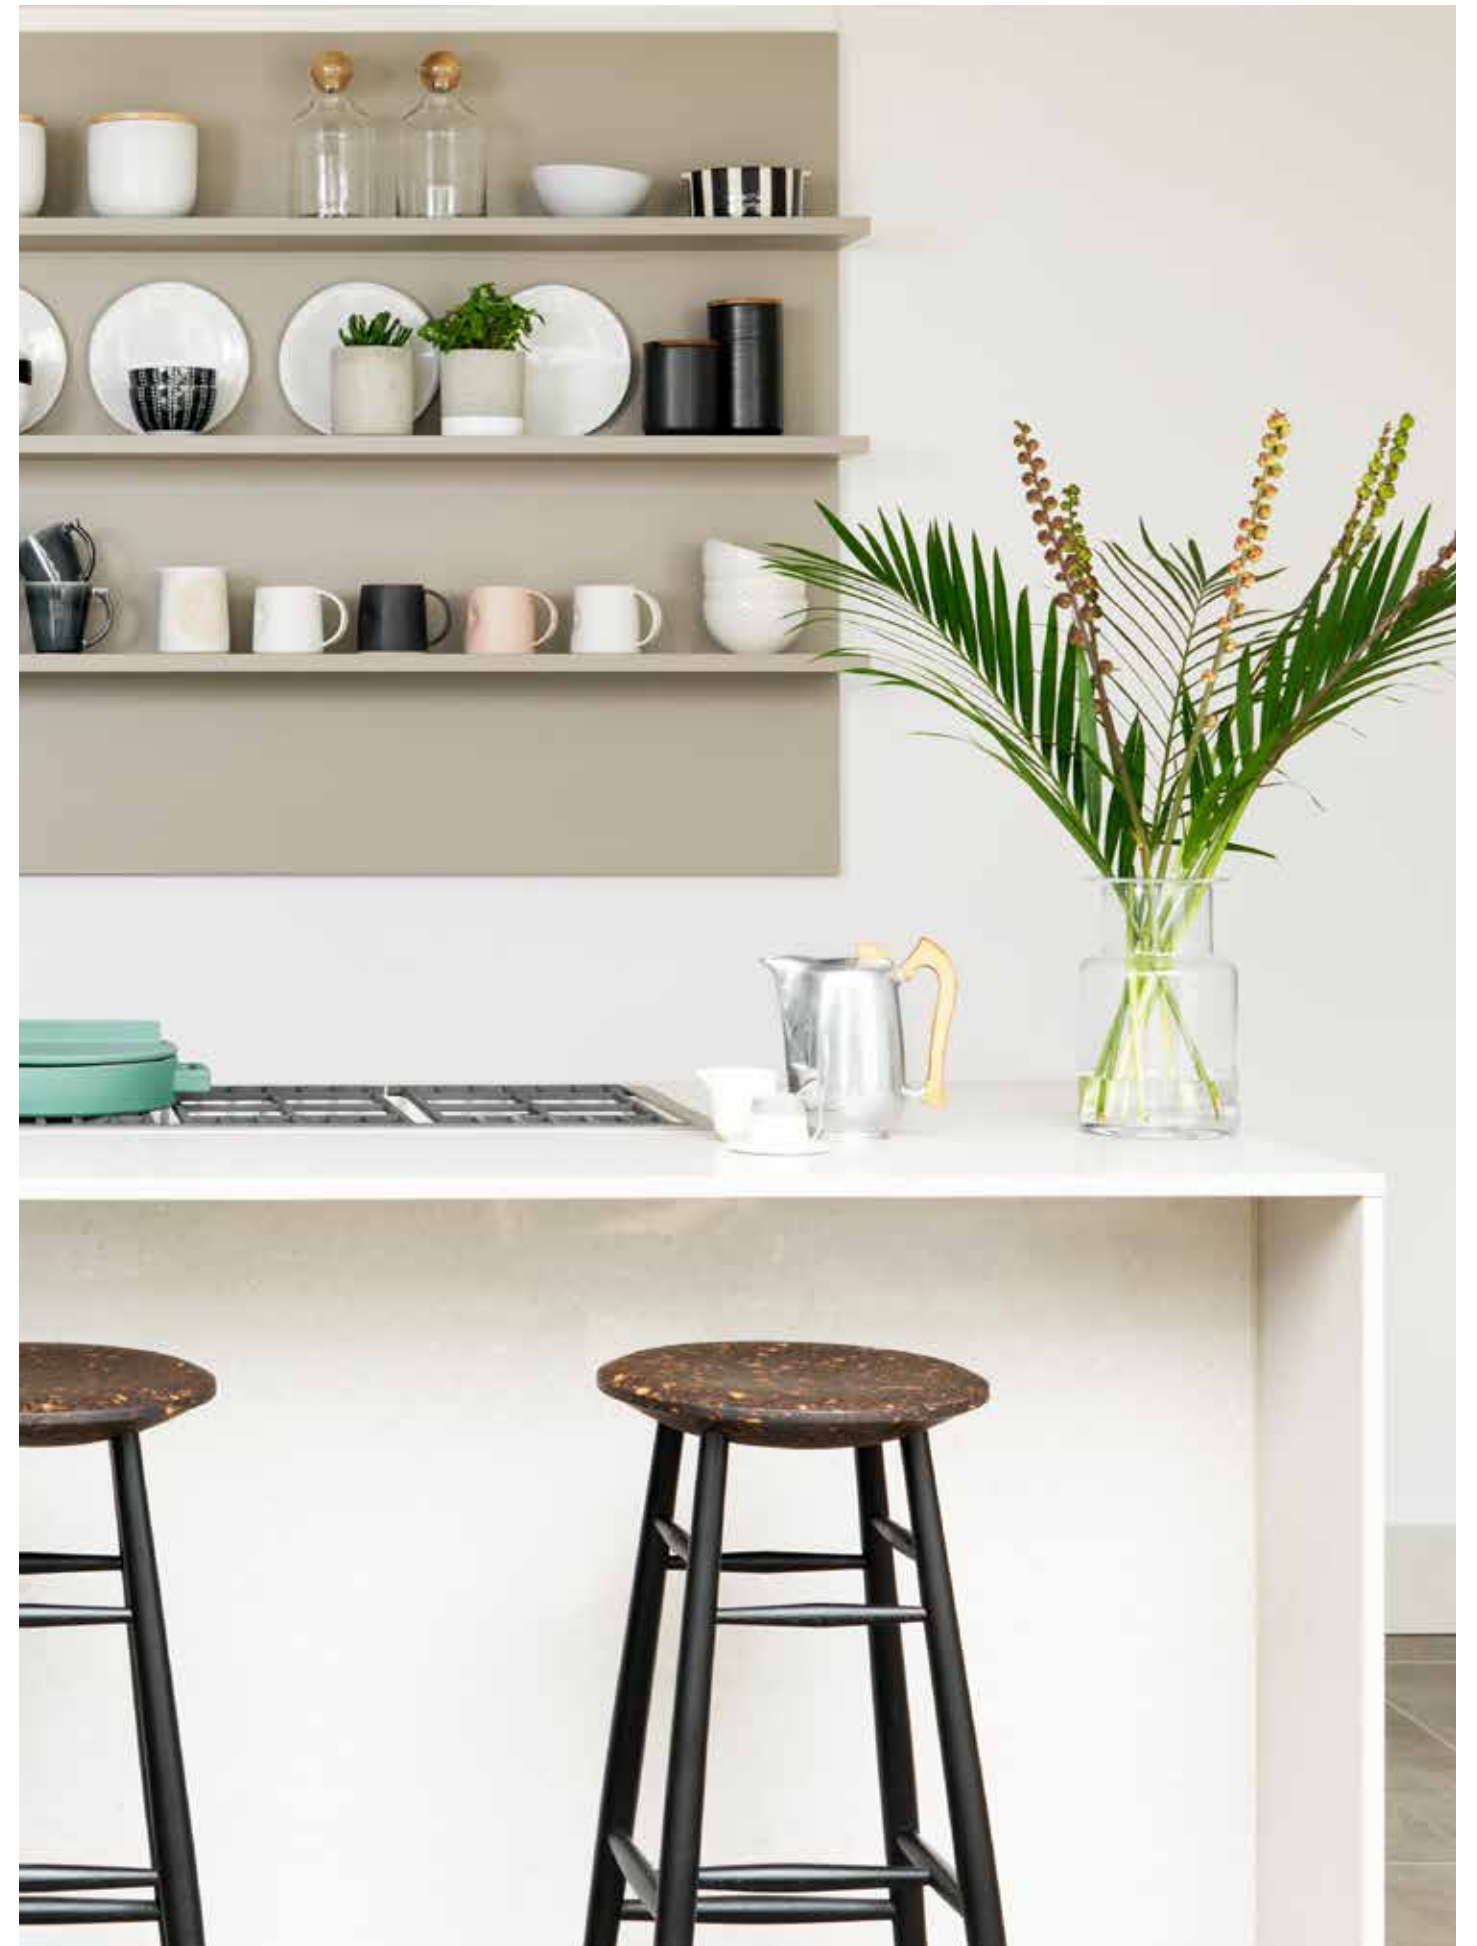

Founding partners Rose Wilkinson & Hannah Birtwistle hold strong creative backgrounds, their intelligent use of space and materials result in emotive interiors, defined by the marriage of function and elegance. They design with an exceptionally attentive approach and work in successful collaborations to deliver interiors of quality and outstanding beauty.

How We Work

‘We don’t prescribe what we do, we build relationships. We build good relationships with people and then we create environments based on what we learn from that relationship’

‘We are meticulous, calm, free thinking and friendly. Here you will find no ego’

‘Our studio is a working family and we strive to foster friendships with those we come across. Above all we have a sense of humour’

Our Design Style

We are brave

We are considered

We are elegant

We are playful

We love nature and all that it brings to a design

We love colour

We love softness

We believe in the longevity of design

We are mature

We are cultured

We find luxury is in the craft of designs

We are not led by trends

We are eclectic in our taste

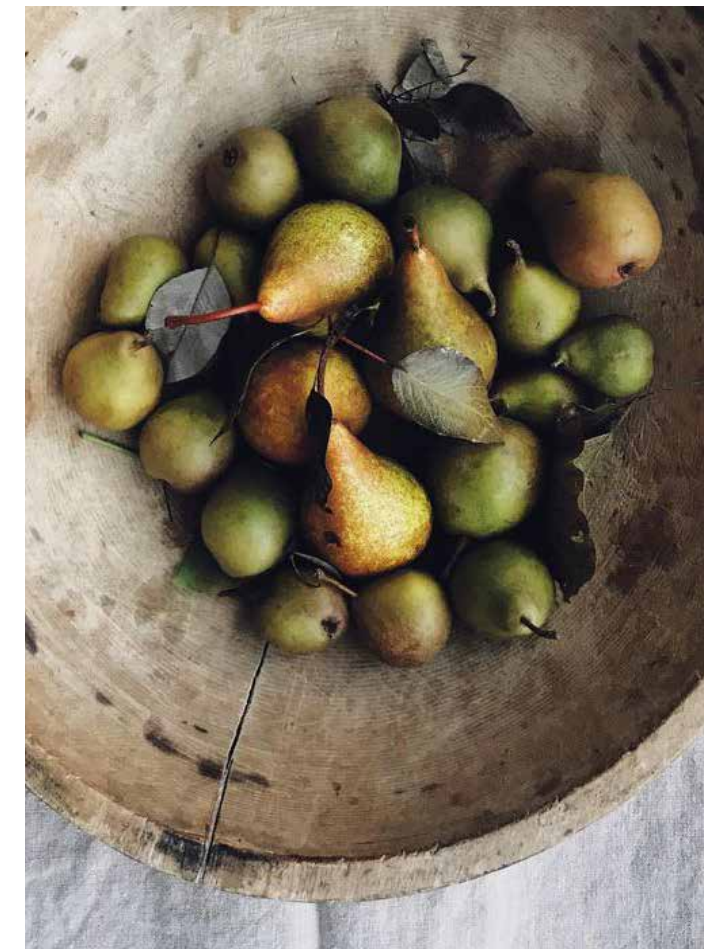

We find beauty in heritage

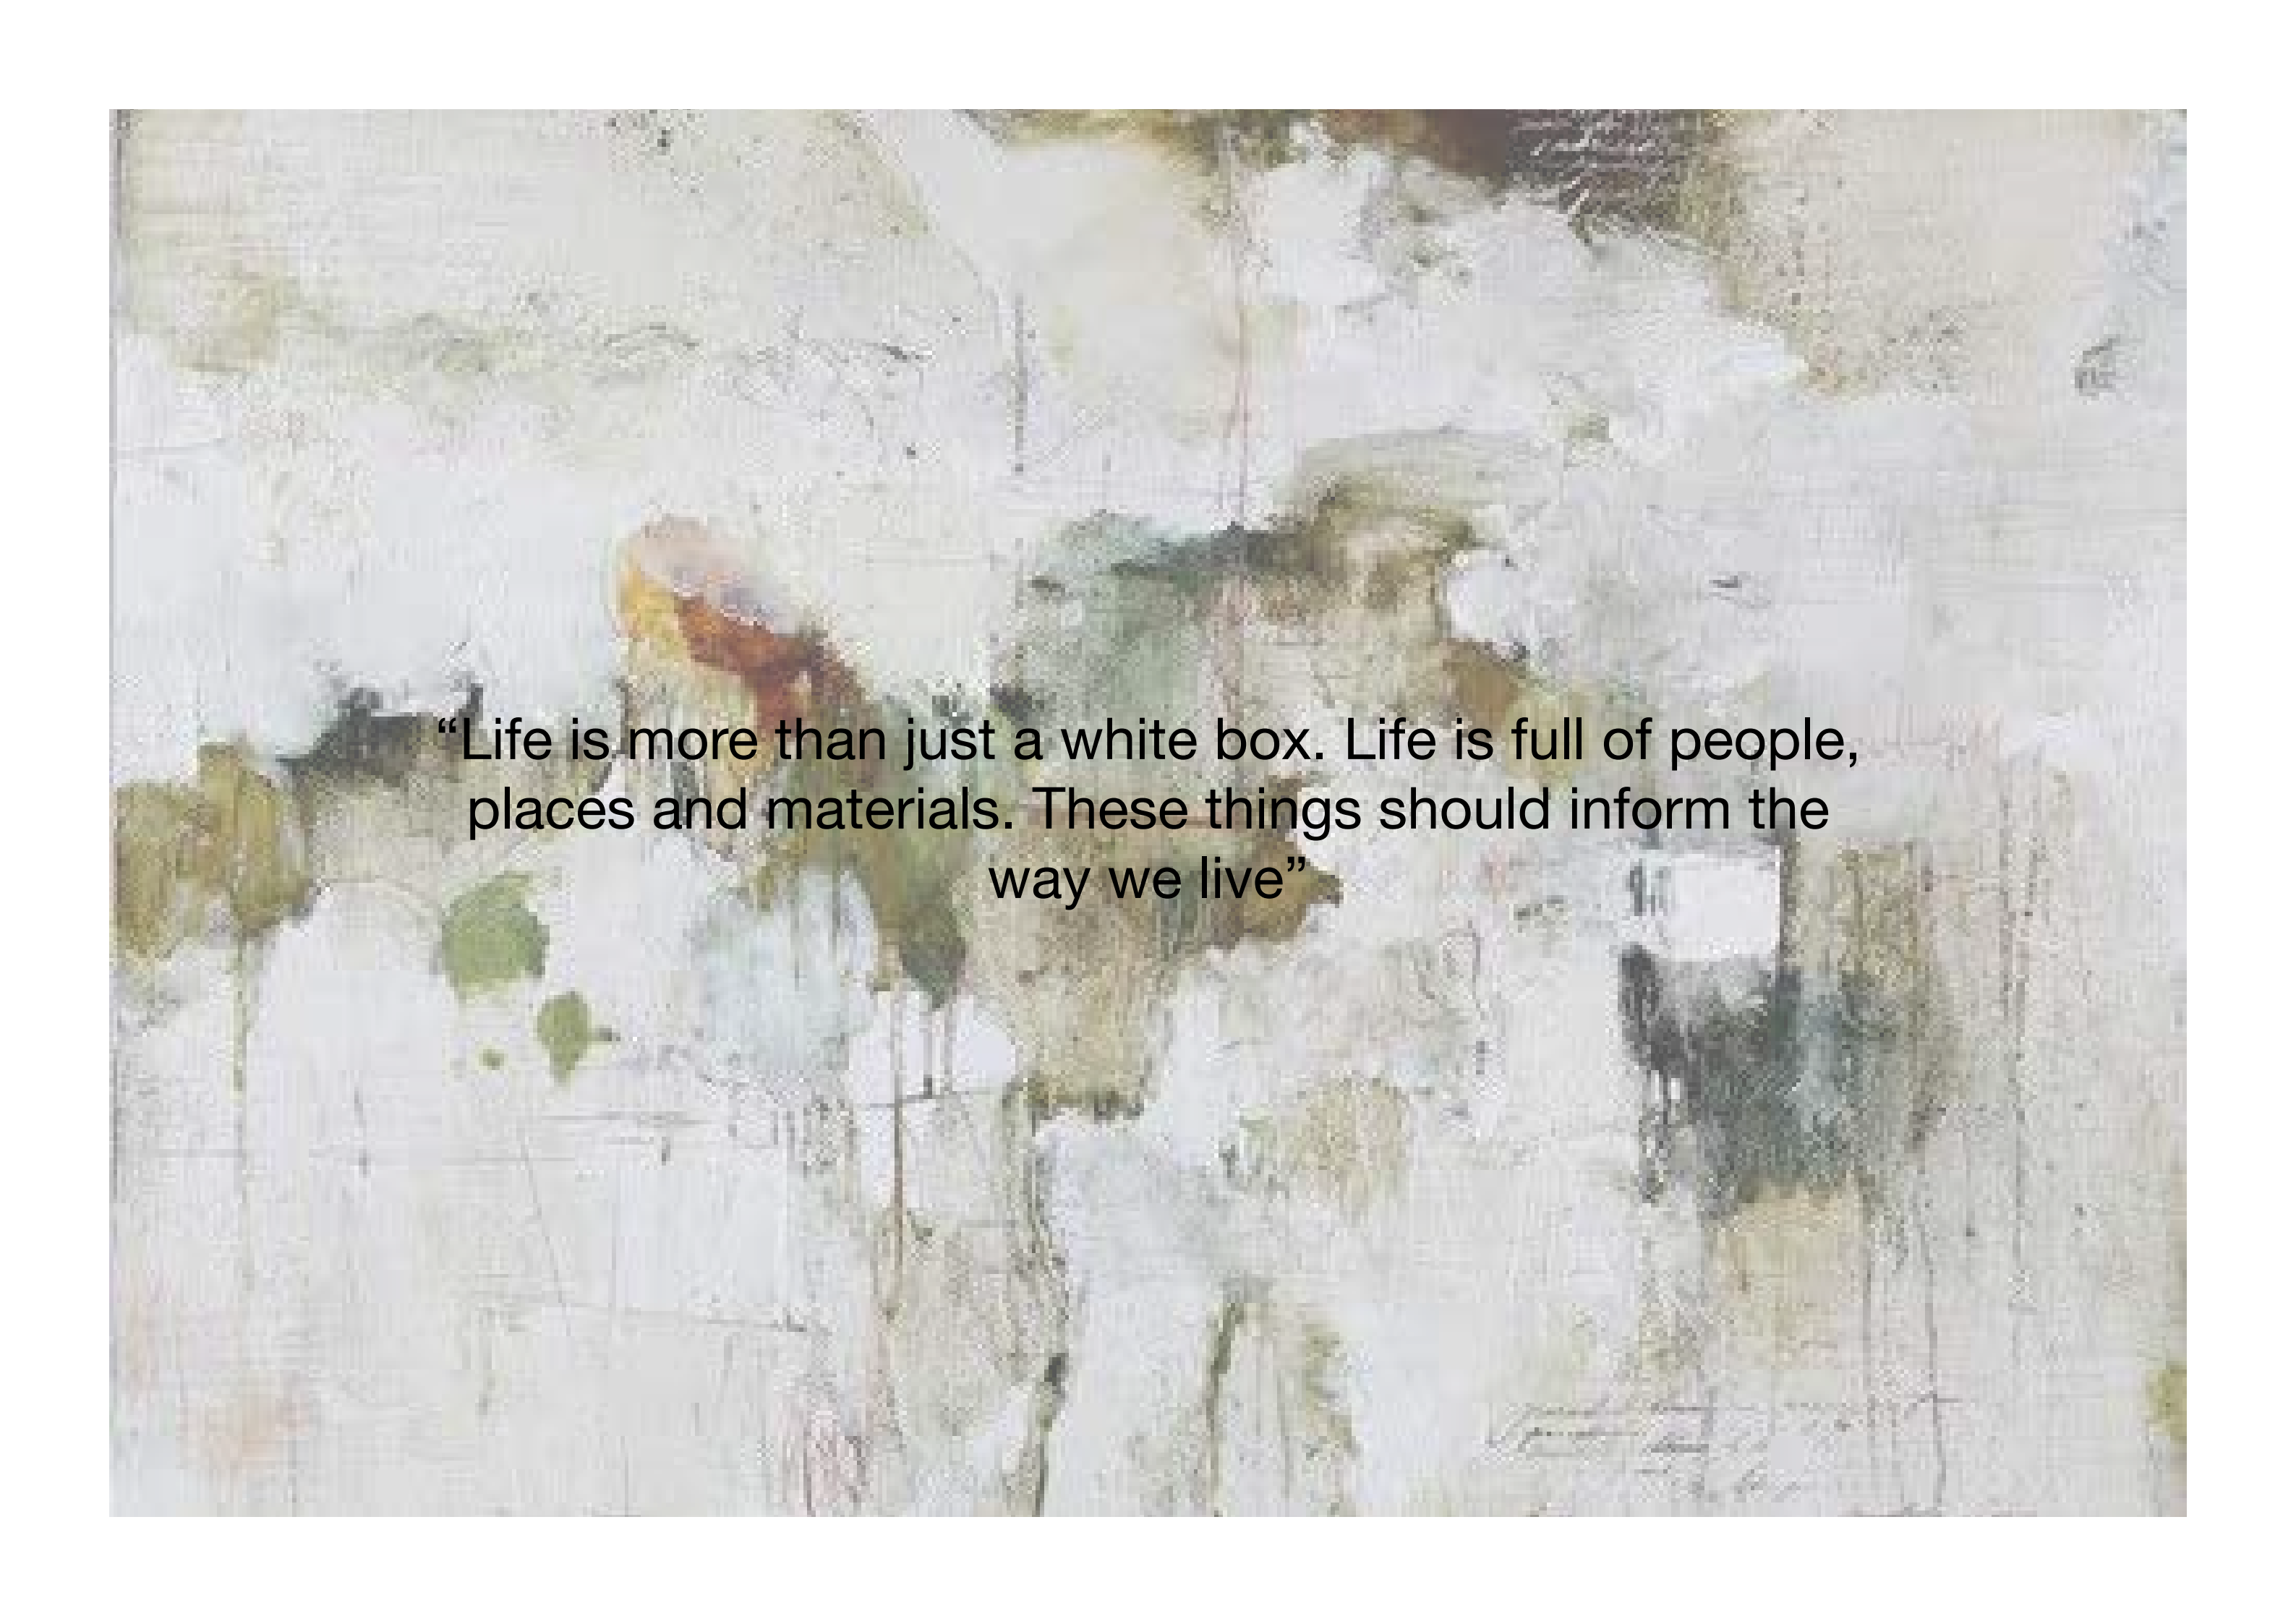

We believe in the emotion of spaces

We are light

We enjoy what we do

We want to work with you

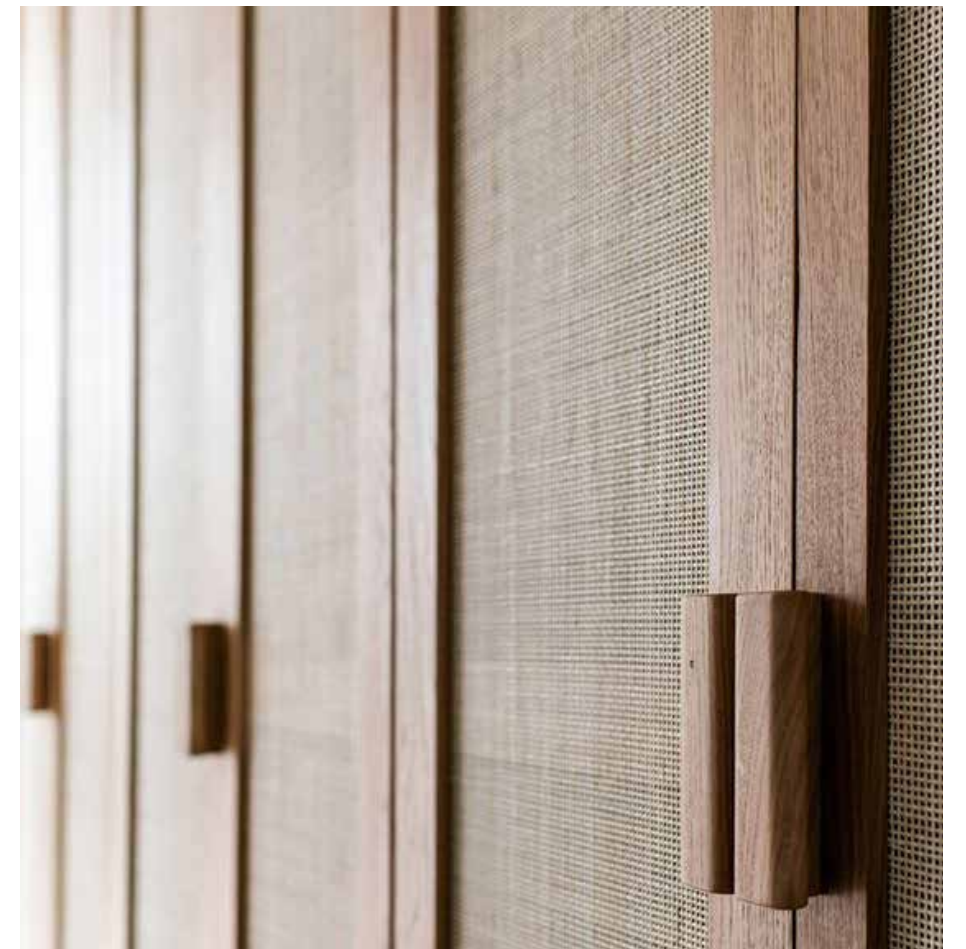

An abstract painting featuring a light gray background with a faint grid pattern. Overlaid on this are various organic, painterly shapes in muted colors like olive green, ochre, and dark brown. The overall effect is layered and textured, suggesting a complex narrative or environment.

“Life is more than just a white box. Life is full of people, places and materials. These things should inform the way we live”

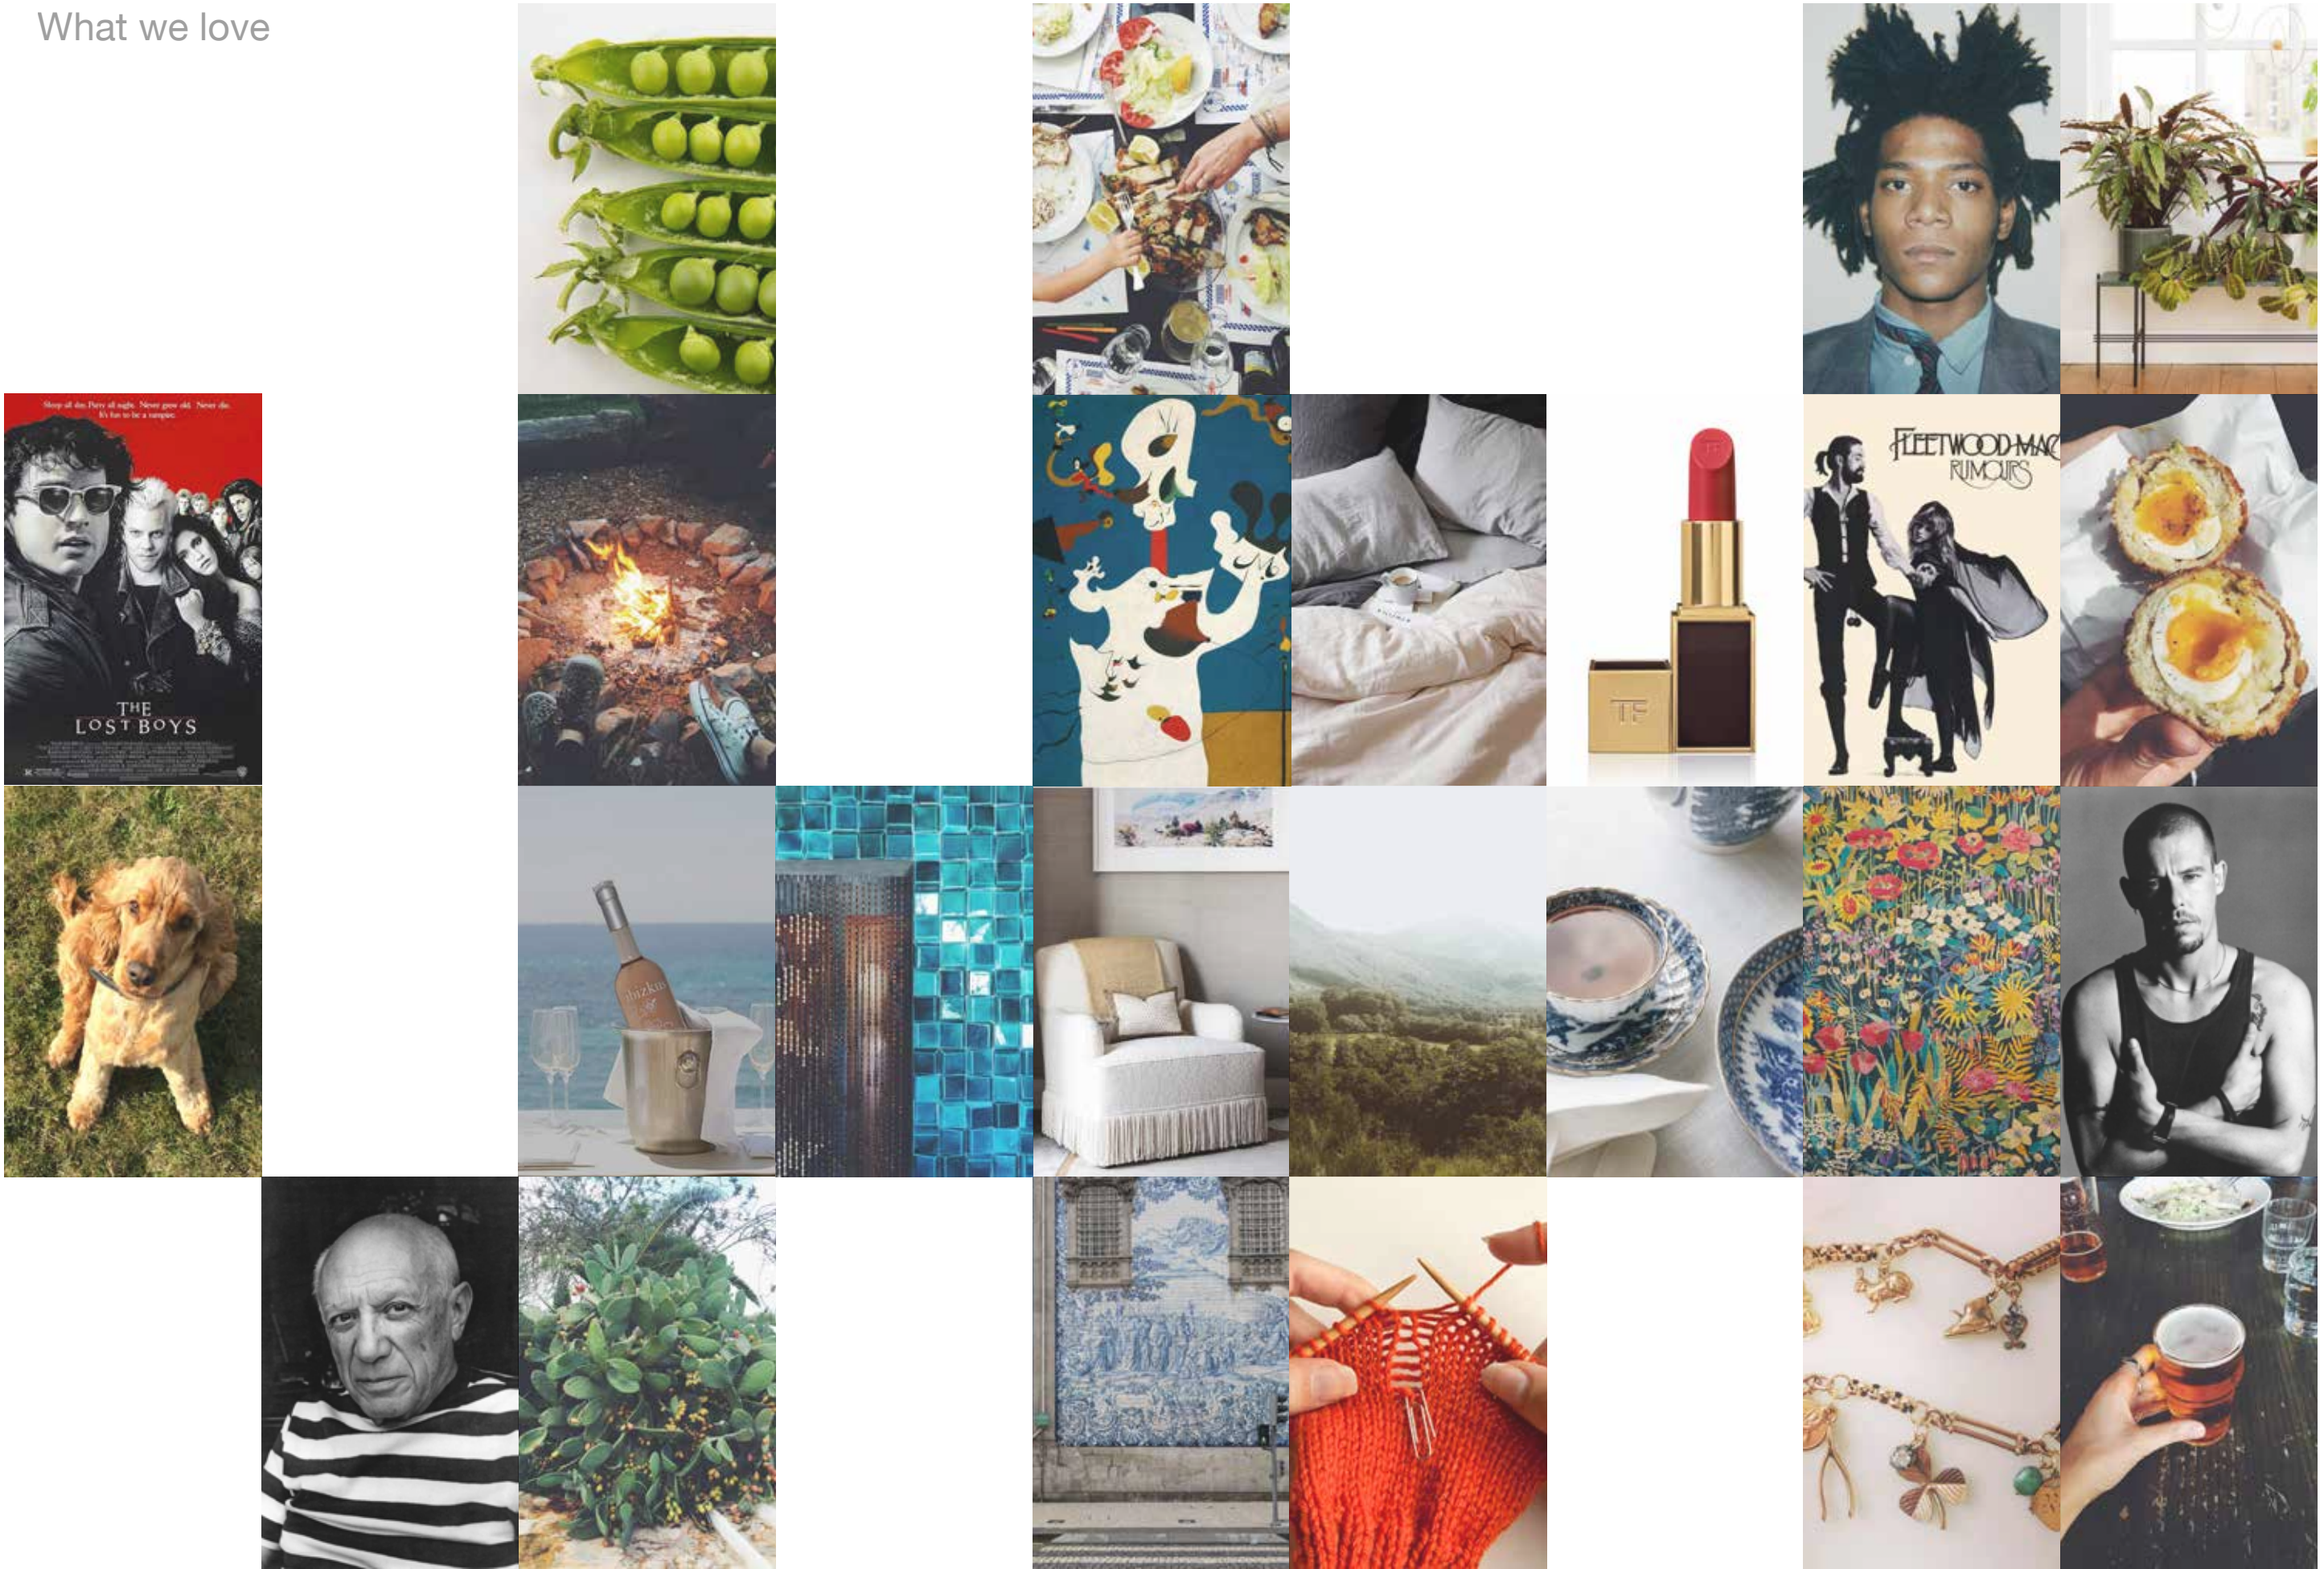

What is good design?

A space that speaks to the soul

What we love

Who we love to work with?

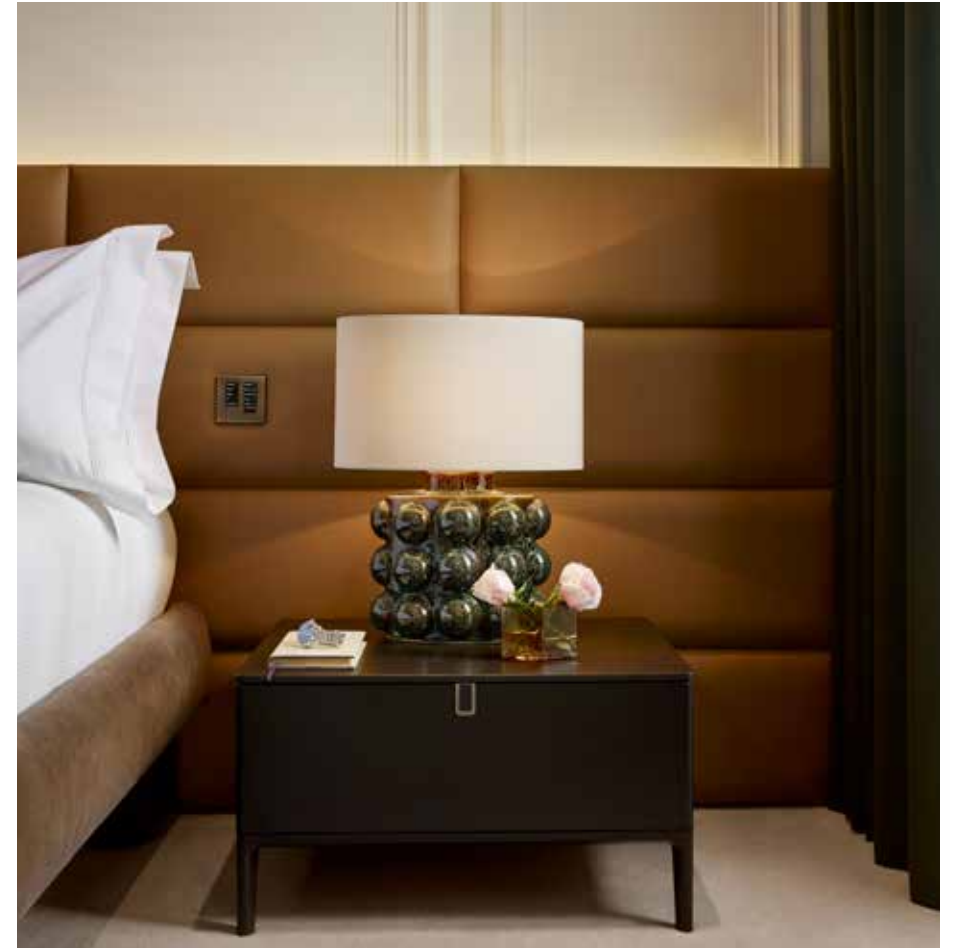

Those who are adventurous, brave and open minded. Who like to collaborate and will put their trust in us. Those who are ready to embrace a process and have a sense of humour.
