

#1 The Estate Key

**Life & Legacy
Organized**

#2

#3

#4

#1 I put name of company on top and motto underneath, but I am open to other design ideas and layouts for logo.

#2 I like the detail and outline of key in this one/Hands are too real looking, need to be more graphically represented.

#3 I like the hands in this one. I also like the key floating between the two hands-maybe we could design key like in #2 and insert here.

#4 similar concept to #3. I don't like suit detail, want to keep it unisex. The hands here are too plain, maybe a hybrid between hands in #3 and #4? Different color palette.

Colors: I like blues/grays/greens/yellows/blacks. I would like to limit to three main colors if possible.
