

WHO ARE WE ?

Established in 2000, AV Media Systems are a dedicated team of Audio Visual professionals whose extensive industry experience, customer focus and purchasing power result in outstanding presentation solutions designed to make you look GREAT !

We offer state-of-the-art technology combined with reliability, professional service and value for money for our customers. With offices located in Melbourne, Sydney, Brisbane and Perth we are ideally positioned to provide national coverage for businesses both small and large.

We don't just sell products, anyone can do that; we specialise in asking the right questions in order to understand your unique needs, offer our advice and then design strategic options to meet your needs in order to deliver the optimum communications environment.

With our expert guidance, industry knowledge, experience and patience, AV Media Systems will deliver you a user-friendly, customised solution at the best value to meet your needs.

BOARDROOMS

Impress your clients using the latest technology and professional av equipment allowing you to concentrate on your presentation while having total confidence in your equipment.

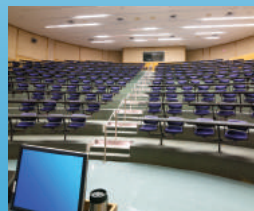

MEETING ROOMS

Many meeting rooms are now multi-purpose and need to cater for variety of uses- we can ensure you have the right equipment to maximise upon these spaces.

VIDEO CONFERENCING

Experience why so many organisations have embraced collaboration. From Skype, Webex, GoToMeeting right through to high-end video conferencing platforms. We will guide you every step of the way.

LARGE VENUES

Large-venue spaces require speciality integration skills to ensure delivery of effectiveness in both video and audio equipment with ease-of-use a paramount requirement.

SPORT & RECREATION

One of the fastest growing markets in Australia, AV Media Systems have been providing design, installation and technical services to this exciting sector for over 15 years.

PROJECTORS

Projectors remain a popular and effective presentation tool and the technology and options available today is astounding. Let us help you decide what is right for your business from a range of manufacturers.

LED TOUCHSCREENS

Our extensive experience in the area of interactive touchscreens is second-to-none. This impressive technology is ideal for meeting rooms, collaboration, brain-storming, training rooms and more. Ask us for a free demonstration.

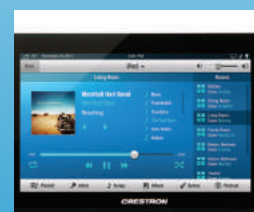

VIDEO WALLS

Larger and more impressive screens are required in many applications now and with multi-screen video wall sizes virtually unlimited the image quality is impressive. A very cost effective solution for high quality large images.

DIGITAL SIGNAGE

What better way to get your message around the organisation or world than digital signage. All managed using a web-browser and suitable from one screen to thousands all on the same network !

AV CONTROL SYSTEMS

Does your office have that one person you rely upon to set up and get your AV equipment operational – you might need to consider a user-friendly control system to start, control and switch off everything from your finger-tips.
