

# PROCUREMENT TO PAYMENT (P2P) VIA MATERIAL MANAGEMENT SOFTWARE

How to Integrate and Automate with Vista and Spectrum

# What is Procure to Pay?

It's a complicated way to say integrate and automate with Material Management

- ❑ Integrate: Planning, Quote, Purchase Order, Acknowledgement (Committed Cost), Invoice, Payment, and Reporting
- ❑ **Material Management Software** is leading the way to reduce data entry and work with your supplier's data to create a multi-enterprise network to enable your suppliers to submit electronic acknowledgements of purchases, and purchase-order-to-invoice matching and processing.
- ❑ **Material Management Software** is also looking for partners to bring the next level of e-commerce functionality including e-requisitioning, approval workflow and e-catalog management to its already robust suite of apps.

There is more ahead....
