

## About Us

---

A **single, secure cloud workspace** for seamlessly storing and sharing your most important data.

---

Managing your data and streamlining workflows is vital to your success. That's why we offer a secure, customizable platform built to make you more efficient – **no IT team required**. The Qdrive Assistant lets you define your own security policies, automate document management, easily design templates, and seamlessly share unlimited files with your team and customers from one place, in seconds.

### Enhanced **Productivity**

Even the most widely used cloud storage systems can be organized haphazardly. We offer a way to organize and retrieve your data faster while providing better visibility into documents and related processes.

### Robust **Data Security**

You need built-in security and document control. The Qdrive Assistant takes data encryption and disaster recovery very seriously while also enabling better collaboration and seamless document sharing.

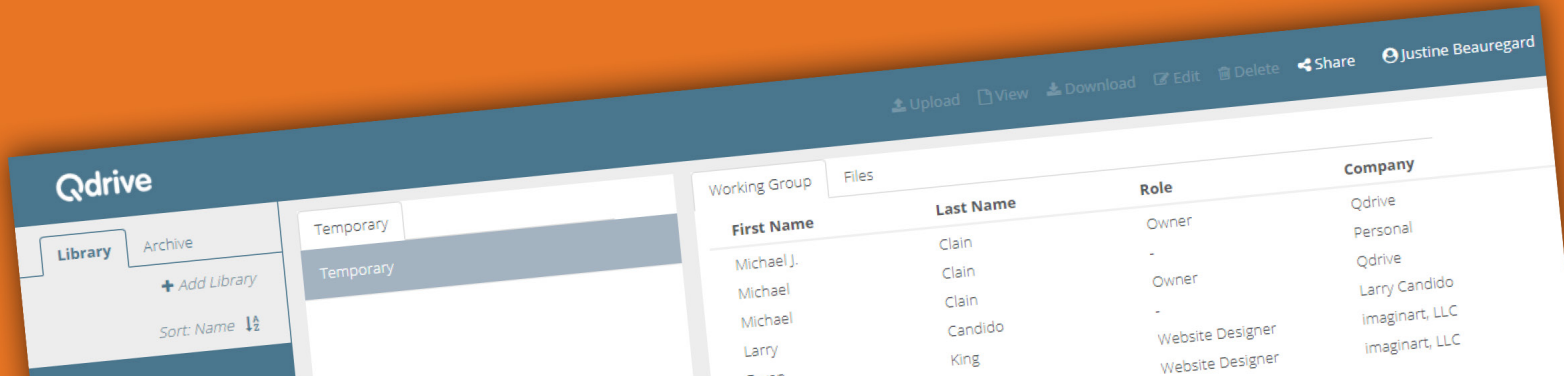

### Powerful **Customization**

Customizing software to fit your needs improves productivity. You can tailor Qdrive to work for you without technical assistance and even make changes ongoing so it always matches your workflow.
