CLIENT PROPOSITION

OUR CLIENTS MAKE SIGNIFICANT INVESTMENTS IN BUILDING ASSETS

THEY WANT REDUCED RISK, TIMELY AND COST-EFFICIENT ASSET DELIVERY AND OPTIMISED INVESTMENT RETURNS.

AT ALEXANDER MAC, WE BELIEVE THAT CLIENT SUPPORT FOR BUILDING ASSET DEVELOPMENT, EXECUTION AND OPERATIONS CAN BE DONE BETTER.

THIS CLIENT PROPOSITION IS UNDERPINNED BY 3 CLEAR BUSINESS PRIORITIES;

- ^ OUTSTANDING QUALITY OF OUR PEOPLE
- ^ EXCELLENT CUSTOMER SERVICE
- ^ INTEGRATION OF HORIZON TECHNOLOGY

2

ABOUT ALEXANDER MAC

ALEXANDER MAC IS A PROFESSIONAL SERVICES CONSULTANCY AND FACILITIES MANAGEMENT COMPANY THAT BELIEVES CLIENT SUPPORT FOR BUILDING ASSET DEVELOPMENT, EXECUTION AND OPERATIONS CAN BE DONE BETTER.

OUR SERVICES IMPROVE INVESTMENT VALUE VIA ACTIVE ENGAGEMENT ACROSS THE ENTIRE LIFECYCLE OF OUR CLIENTS BUILDING ASSETS.

“
WE IMPROVE OUR CLIENTS
INVESTMENT VALUE WITH
THREE CLEAR BUSINESS
PRIORITIES.
”

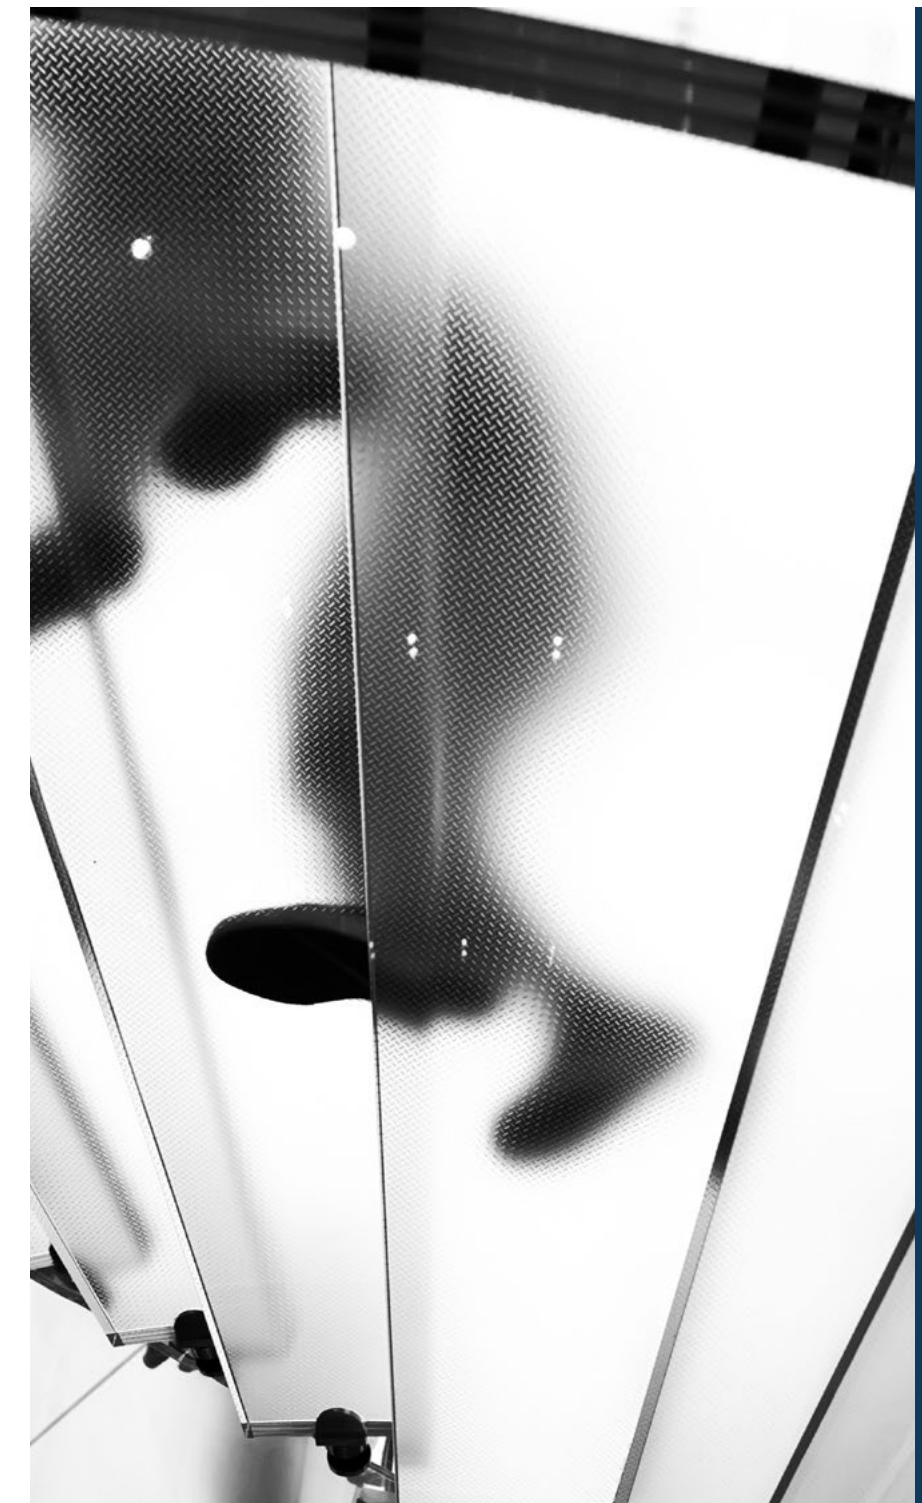

PEOPLE QUALITY | CUSTOMER SERVICE | HORIZON TECHNOLOGY

PEOPLE QUALITY

THE SERVICE WE PROVIDE FOR OUR CLIENTS IS ONLY AS GOOD
AS THE PEOPLE WHO DELIVER IT.

WE ONLY RECRUIT INDIVIDUALS THAT FIT OUR COMPANY
ETHOS FOR EXCELLENCE AND A CAN-DO APPROACH. OUR
STAFF HAVE THE RIGHT ATTITUDE, TECHNICAL CAPABILITIES
AND EXPERIENCE THAT DELIVERS RESULTS FOR OUR CLIENTS
EACH AND EVERY TIME.

LEADERSHIP & OWNERSHIP

Alexander Mac provides our clients with professional people who take a leadership role in the development, delivery and management of our clients building assets and related operations. Our people undertake an appropriate sense of ownership in delivering each and every milestone of the projects we manage - elevating our services above the industry standard, resulting in greater value for our clients in the outcomes delivered.

EXPERTISE & EXPERIENCE

Alexander Mac staff are qualified development, project and facilities management professionals, each with unique and individual experience across a wide range of industry sectors. We ensure that each and every client project is supported by a team with the appropriate capability to deliver agreed outcomes at the quality standards we set for ourselves, and promise to our clients.

COLLABORATION & TEAMWORK

At alexander mac, we recognise that successful project outcomes are the result of efficient and effective teamwork. Our approach to each and every client project is one of robust communication and collaboration between all stakeholders, consultants, contractors and third party project participants to ensure a common goal is established, and team efforts are optimised to achieve it.

CUSTOMER SERVICE

AT ALEXANDER MAC, WE BELIEVE IN TRULY UNDERSTANDING THE CLIENT, AND RELATED PROJECT REQUIREMENTS AS THE CENTRAL POINT FROM WHICH WE DELIVER OUR SERVICE. DAILY PROJECT ACTIVITIES ARE THEN MODELLED ON THIS UNDERSTANDING TO ENSURE WE MEET CLIENT EXPECTATIONS OF US, AND ACHIEVE TARGET PROJECT OUTCOMES ESTABLISHED AT THE OUTSET.

ACTIVE ENGAGEMENT

Alexander Mac delivers a service to our clients based on active engagement. We are focussed on being holistically aware of both the client and project requirements, as well as the specific disposition of all other project stakeholders and contributing consultants, contractors and third parties. From this position of awareness, we engage in proactive leadership and facilitation, questioning and communication, and remain fully engaged across all aspects of our clients projects until target deliverables are achieved.

VISION ALIGNMENT

At Alexander Mac, we believe that vision alignment throughout the project lifecycle will achieve better results for our clients and their projects. We are active in the validation of the client brief and its potential for scope adjustment. Our service is then focussed on achieving the client vision and related project objectives by ensuring constant alignment of ourselves, project stakeholders, the project team and project activities to a common understanding of the ultimate vision and expectations for the project.

EXECUTION & DELIVERY

At Alexander Mac we believe in purposeful actions to achieve quality in project execution. We use industry expertise and experience to actively plan the execution of our clients projects, based on our developed knowledge of the market, client requirements and our command of the engaged project team. Our team is then actively engaged in doing and achieving demonstrable outcomes to execute and deliver the project that meets our clients expectations.

HORIZON TECHNOLOGY

THE INTEGRATION OF HORIZON TECHNOLOGY INTO OUR SERVICE PROVIDES PROGRAM AND COST SAVINGS IN EXECUTION, AS WELL AS ENHANCEMENTS TO THE CONCEPTION AND OPERATION OF OUR CLIENTS BUILDING ASSETS. AT ALEXANDER MAC, WE AIM TO OPTIMISE PROJECT OUTCOMES FOR OUR CLIENTS AS A LEADER IN TECHNOLOGY APPLICATION WITHIN THE PROJECT ENVIRONMENT.

BUILDING INFORMATION MODELLING (BIM)

Alexander Mac and our partners are leaders in the implementation of Building Information Modelling (BIM). BIM implementation adds value to our clients projects by creating, managing and sharing the properties of a building asset in an intuitive, multi-dimensional graphic form. This provides our clients an enhanced ability to control scope, functional capabilities, and cost, while minimizing the cost of design changes and coordination challenges. BIM implementation has been subject to government mandates throughout Europe, Asia and the UAE due to its intrinsic project benefits - Alexander Mac provides our clients with a turn-key ability to profit from BIM and the benefits it brings.

IT INTEGRATION

At Alexander Mac, we optimise the benefits to our clients projects via the purposeful consideration of information technology. Our in-house technical team is highly proficient at enhancing the project environment we create for our clients projects via the use of collaborative on line tools, data capture, storage and data management software for asset operations, project website generation, other file sharing portals and project team connectivity solutions.

PROPRIETY IT SOLUTIONS

Often our clients projects will benefit from purpose-built software solutions to support project delivery, on-going operations or to solve a specific organisational or project need. The in house software development team at Alexander Mac has significant expertise and experience in bespoke IT solutions, programming, organisational workflow modelling, business process modelling, CRM, ERP and facilities management.

3

SERVICES

ALEXANDER MAC PROVIDES OUR CLIENTS WITH A FULL RANGE OF DEVELOPED SERVICES TO SUPPORT BUILDING ASSET DEVELOPMENT, EXECUTION AND OPERATIONAL PERFORMANCE.

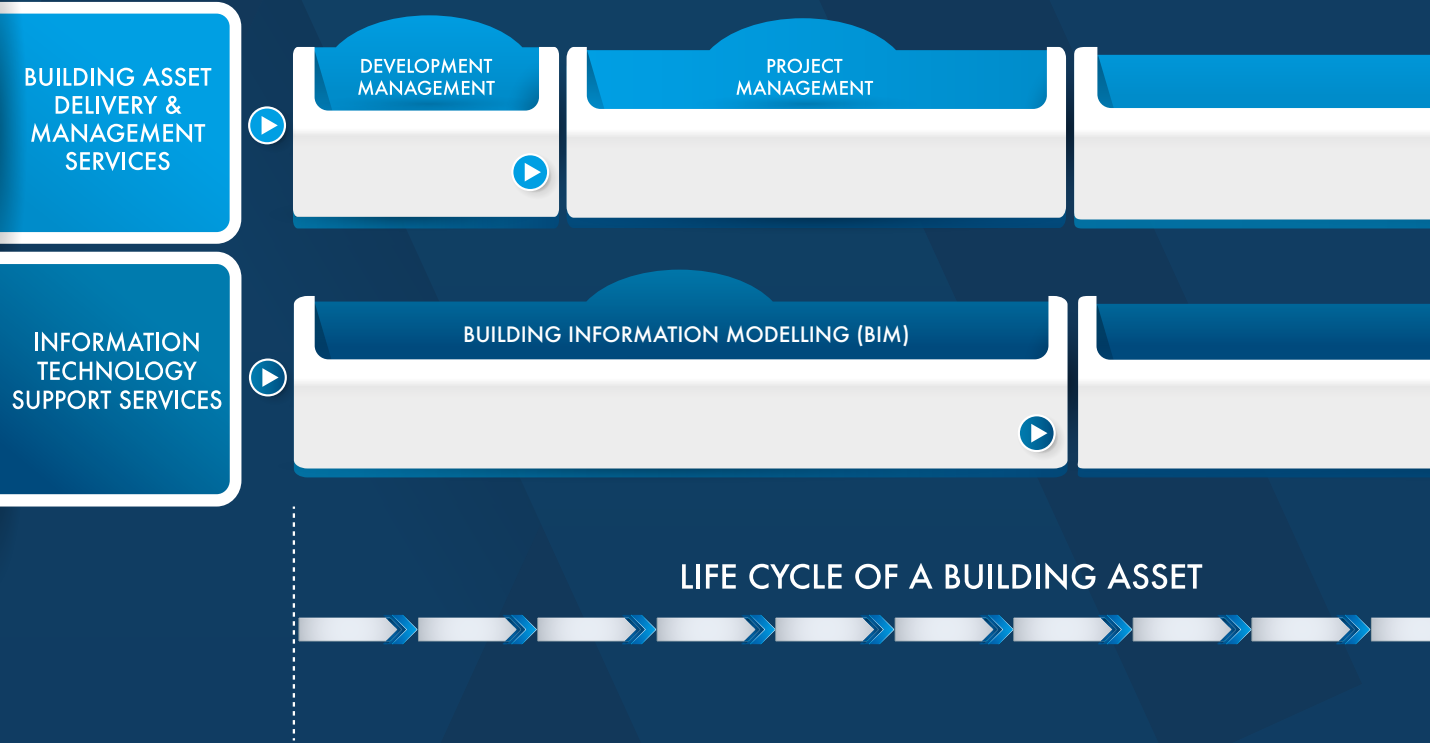

OUR CLIENT PROPOSITION IS REALISED ACROSS 3 DISTINCT SERVICE STREAMS;

- ^ DEVELOPMENT MANAGEMENT
- ^ PROJECT MANAGEMENT
- ^ FACILITIES MANAGEMENT

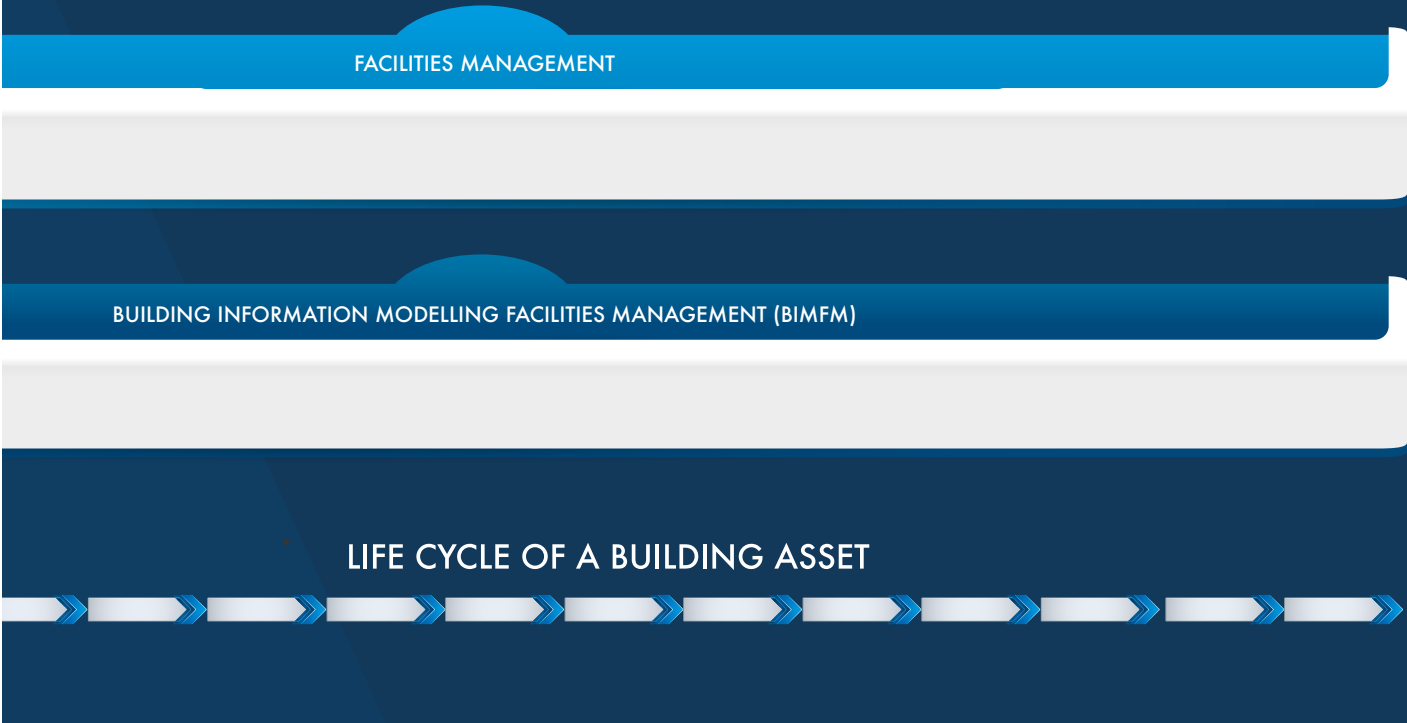

alexander mac

DELIVERY

PROCESS

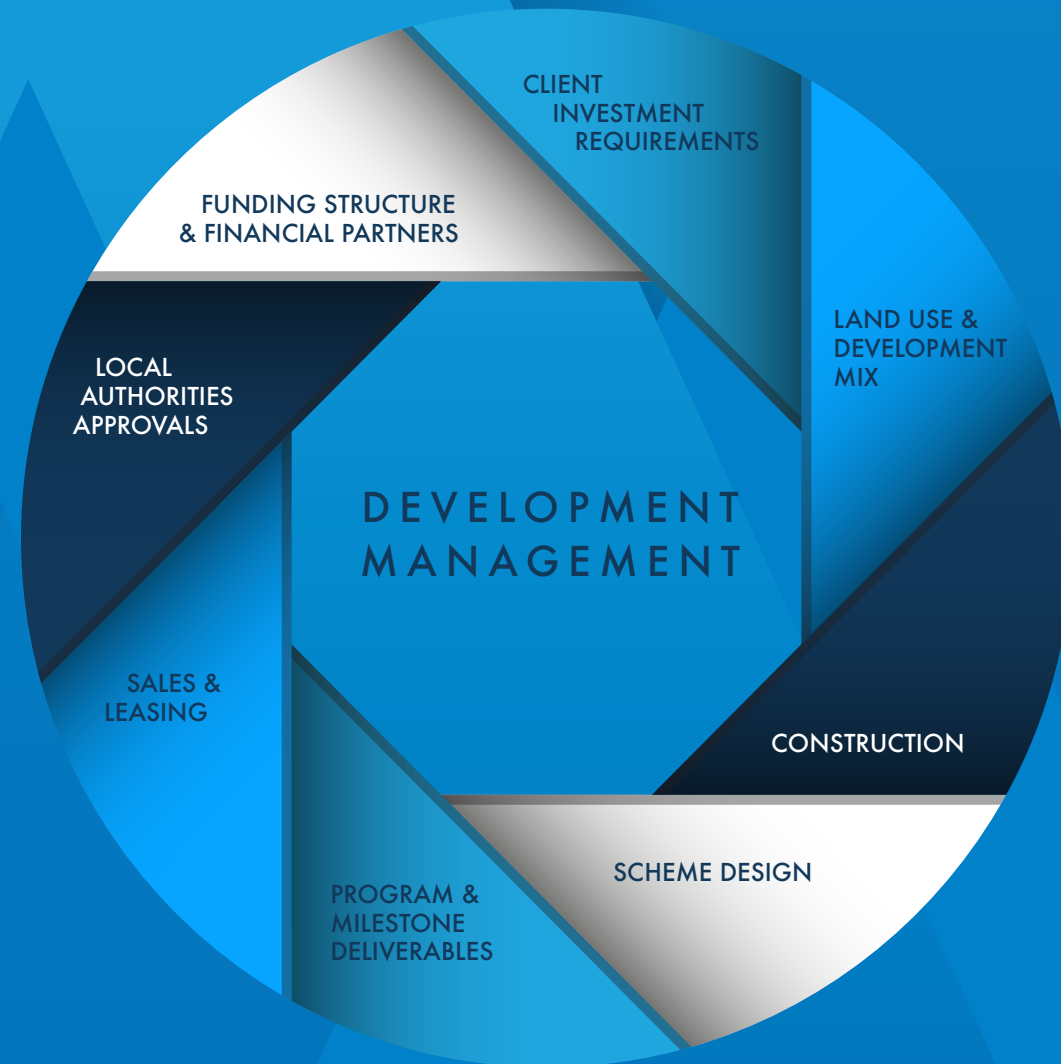

“
OUR VALUE PROPOSITION IS REALISED
IN 3 DISTINCT SERVICES STREAMS:
”

DEVELOPMENT MANAGEMENT | PROJECT MANAGEMENT | FACILITIES MANAGEMENT

DEVELOPMENT MANAGEMENT

OUR DEVELOPMENT MANAGEMENT SERVICE PROVIDES OUR CLIENTS WITH COMMERCIAL INPUT AND PRACTICAL ADVICE TO SUPPORT BETTER REAL ESTATE DECISIONS. WE PROVIDE DUE DILIGENCE AND SITE ACQUISITION SUPPORT, ASSET DISPOSAL AND REGENERATION COORDINATION THROUGH TO PROJECT MANAGEMENT AND CAPITAL RAISING. WE WORK WITH OUR CLIENTS TO OPTIMISE MASTERPLANNING AND LAND USE SCHEMES INCLUDING DEVELOPMENT AND ASSET MIX, DENSITY, PHASING AND DESIGN TO OPTIMISE FINANCIAL AND INVESTMENT RETURNS.

SITE ASSEMBLY

Review and assessment of all site plans and site information, sales and purchase agreements and complete due diligence and negotiating of acquisitions, management of removal of restrictive covenants or other encumbrances to obtain physical site possession.

OPTIONS ANALYSIS

Facilitation of market research to establish local catchment supply and demand including competing schemes in order to determine the preferred land use and asset mix, design, phasing, sales and leasing strategies to optimise investment returns from site development.

DEVELOPMENT APPRAISALS

Provide financial modelling that considers residual land value, construction costs, finance fees, professional fees and other development costs plus capital receipts to advise a forecast development profit in order for our clients to make informed development decisions.

DEAL STRUCTURING

Support to conclude suitable development partners with the required expertise and capital including the management and structuring of joint ventures, special purpose vehicles, structured real estate finance, debt arrangements and forward funding agreements.

DESIGN MANAGEMENT

Active coordination of masterplanning exercises to conclude overall plot design and scheme strategy including plot control sheets and design control regulations for subdivision. Our team will further engage directly with the appointed design team to conclude unit or building design that meets client requirements, supports sales and leasing strategies, achieves local authority approvals as well as project cost, quality, program, buildability and marketability targets.

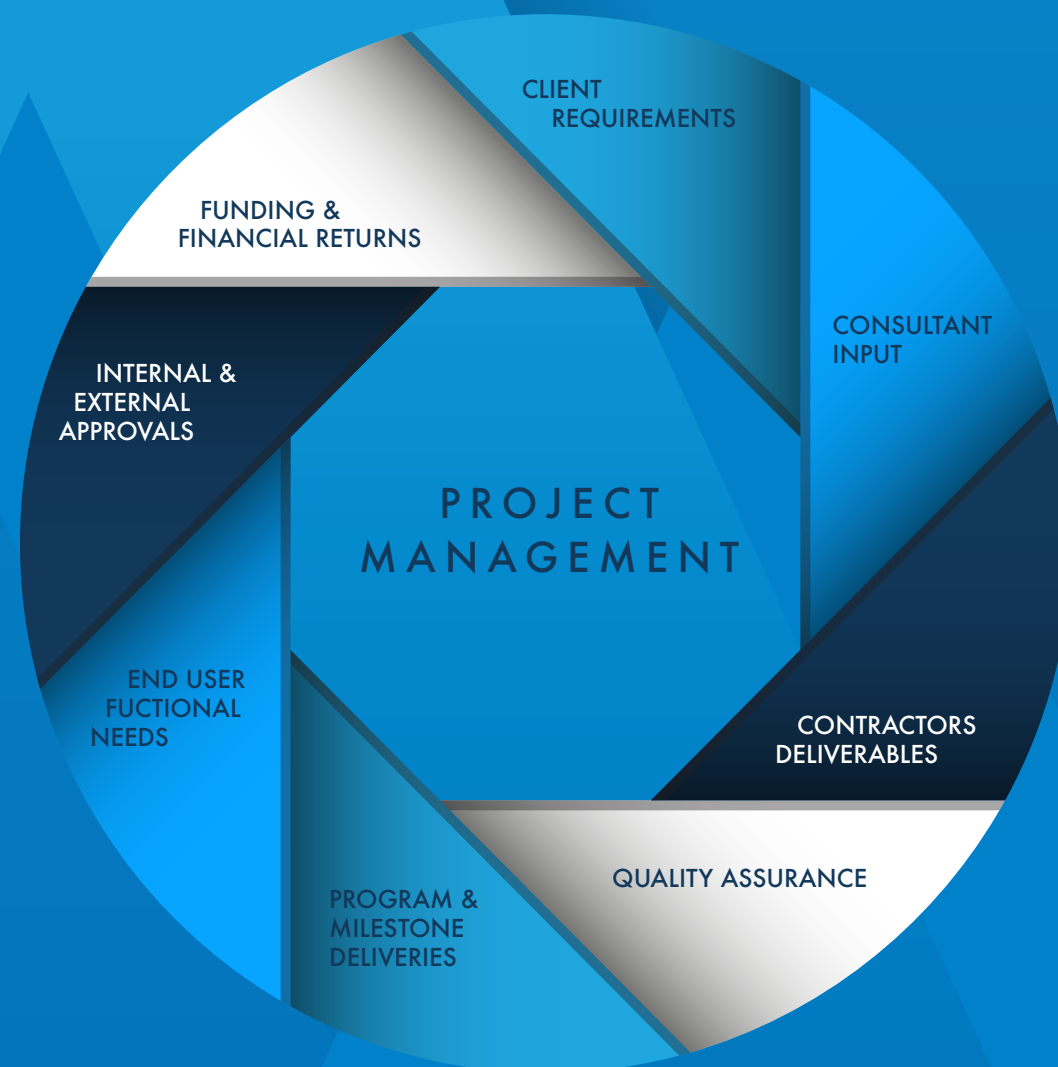

PROJECT & CONSTRUCTION MANAGEMENT

Overall project management of the development implementation including procurement and leadership of all consultants and contractors, authority approvals, commercial matters and appointed cost consultants, value and cost engineering, stakeholder communication and management, community engagement and proactive oversight of contractor activities on site to ensure project progress, quality and budget are being met.

PROJECT MANAGEMENT

OUR PROJECT MANAGEMENT SERVICE DELIVERS AGREED OUTCOMES FOR OUR CLIENTS BUILDING ASSETS AND RELATED INVESTMENTS. WE ARE ACTIVELY ENGAGED IN PROCUREMENT AND COORDINATION OF CONSULTANTS AND CONTRACTORS, MANAGEMENT OF STAKEHOLDERS AND THIRD PARTIES TO CONCLUDE DESIGN, INTERNAL AND EXTERNAL APPROVALS AND DELIVER CONSTRUCTION OUTCOMES. WE DO THIS WHILE CONTROLLING RISK, QUALITY, PROGRAM AND COST TO AGREED TARGETS.

SINGLE POINT OF CONTACT & CONTROL

Taking a primary leadership role, solving problems, coordinating client requirements, consultants, contractors and stakeholders to facilitate project work and demonstrable project progress.

PROJECT ASSEMBLY

Bringing it all together when our clients only have part of the project team or project components in place.

COMMUNICATION MANAGEMENT

Providing a centralised communication hub for all project participants, and ensuring lines of communication are open, functional and actively engaged including regular project reporting to the client.

VALIDATION OF THE CLIENT BRIEF

Working with our clients to crystallise the project vision and convert this to a workable set of project requirements and framework for project delivery.

PROGRAM MANAGEMENT

Creating and managing the project schedule, tracking actual progress and facilitating project team and client actions to achieve agreed deliverables and time frames.

RISK MANAGEMENT

Establish and manage all project risks including maintenance of a risk register and close monitoring and control of horizon risks and implementation of related mitigation strategies.

QUALITY MANAGEMENT

Development of quality metrics and oversight of project deliverables and quality audits to ensure project deliverables meet agreed quality standards.

DESIGN MANAGEMENT

Active communication with appointed design consultants and control of the design process and outputs to ensure client requirements are being achieved while the design works in harmony with project cost, program, functional and buildability targets.

STAKEHOLDER MANAGEMENT

Undertake active engagement with all project stakeholders, providing a single point of reference to facilitate input to the project process, and satisfaction of key project participants.

CONSTRUCTION MANAGEMENT

Provide active oversight of contractor activities on site including regular project progress meetings to identify and resolve any construction related issues and ensure project progress, quality and budget targets are being met.

PROCUREMENT & COMMERCIAL MANAGEMENT

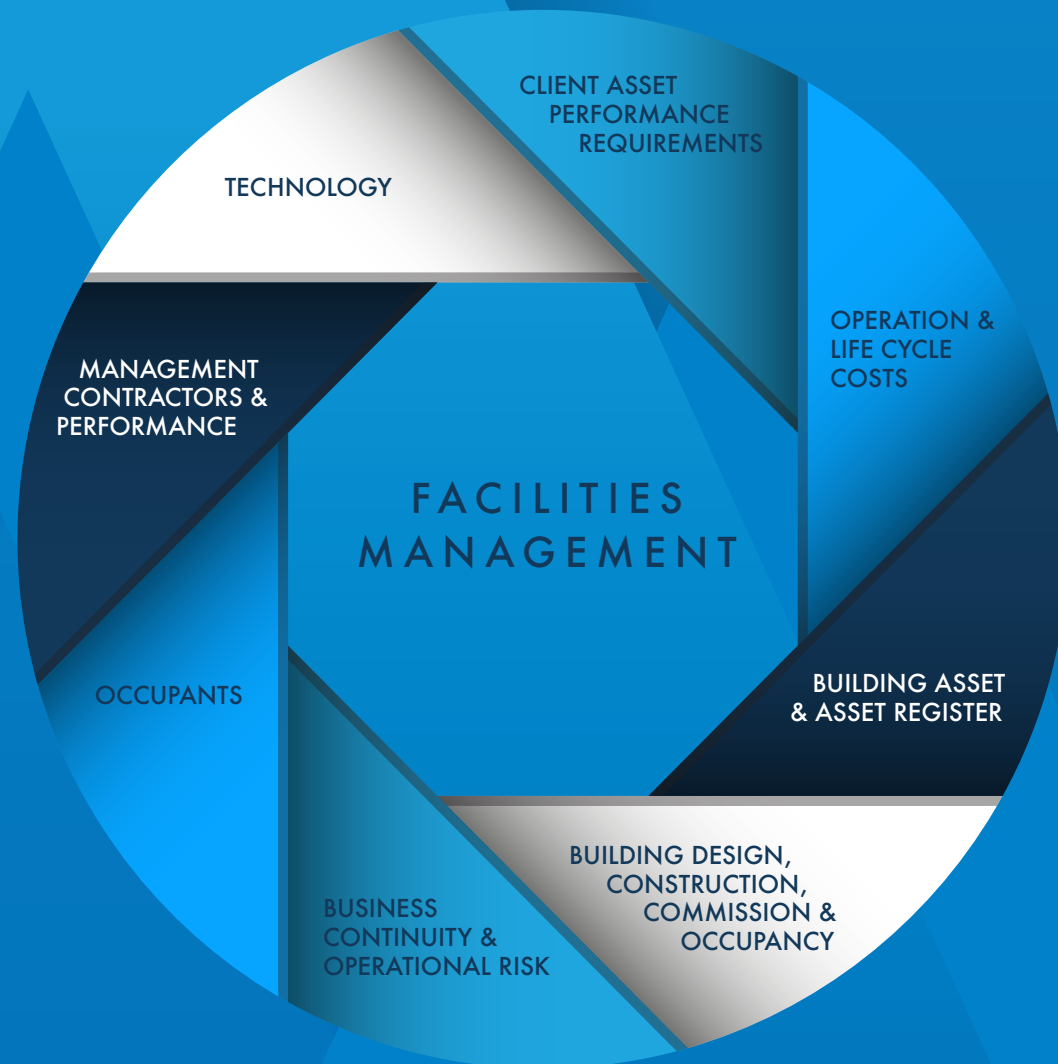

Facilitate the procurement of external project participants including development and issuance of Expressions of Interest and request for proposals, and undertaking negotiation and recommendation of preferred bidders. Manage commercial matters and appointed cost consultants in the certification of payments and input to any contractual issues arising.

FACILITIES MANAGEMENT

ALEXANDER MAC FACILITIES MANAGEMENT WAS BORN FROM OUR EXPERIENCE AS DEVELOPMENT AND PROJECT MANAGERS, RECOGNISING THAT AFTER DESIGN, CONSTRUCTION AND COMMISSIONING, 75% OF THE WHOLE LIFE COST OF OUR CLIENTS BUILDING ASSETS IS IN OPERATIONS, REPAIR AND MAINTENANCE.

OUR FACILITIES MANAGEMENT SERVICE IS UTILISED BY A WIDE RANGE OF BLUE CHIP CLIENTS WHERE OUR INDUSTRY BEST PRACTICE APPROACH BECOMES A SEAMLESS OPERATIONAL FUNCTION OF OUR CLIENTS DAILY OPERATIONS AND A DRIVER OF VALUE AND ASSET PERFORMANCE, UNDERPINNED BY OUR IFM PLATFORM AND ITS RELATED PROPRIETY APPLICATIONS.

PROJECTS

As facility managers, our project management heritage supports our clients with in house expertise and experience and developed tools for efficient management and control of new construction, capital renewal and refurbishments, space planning, moves, adds and changes.

DESIGN CONSULTING

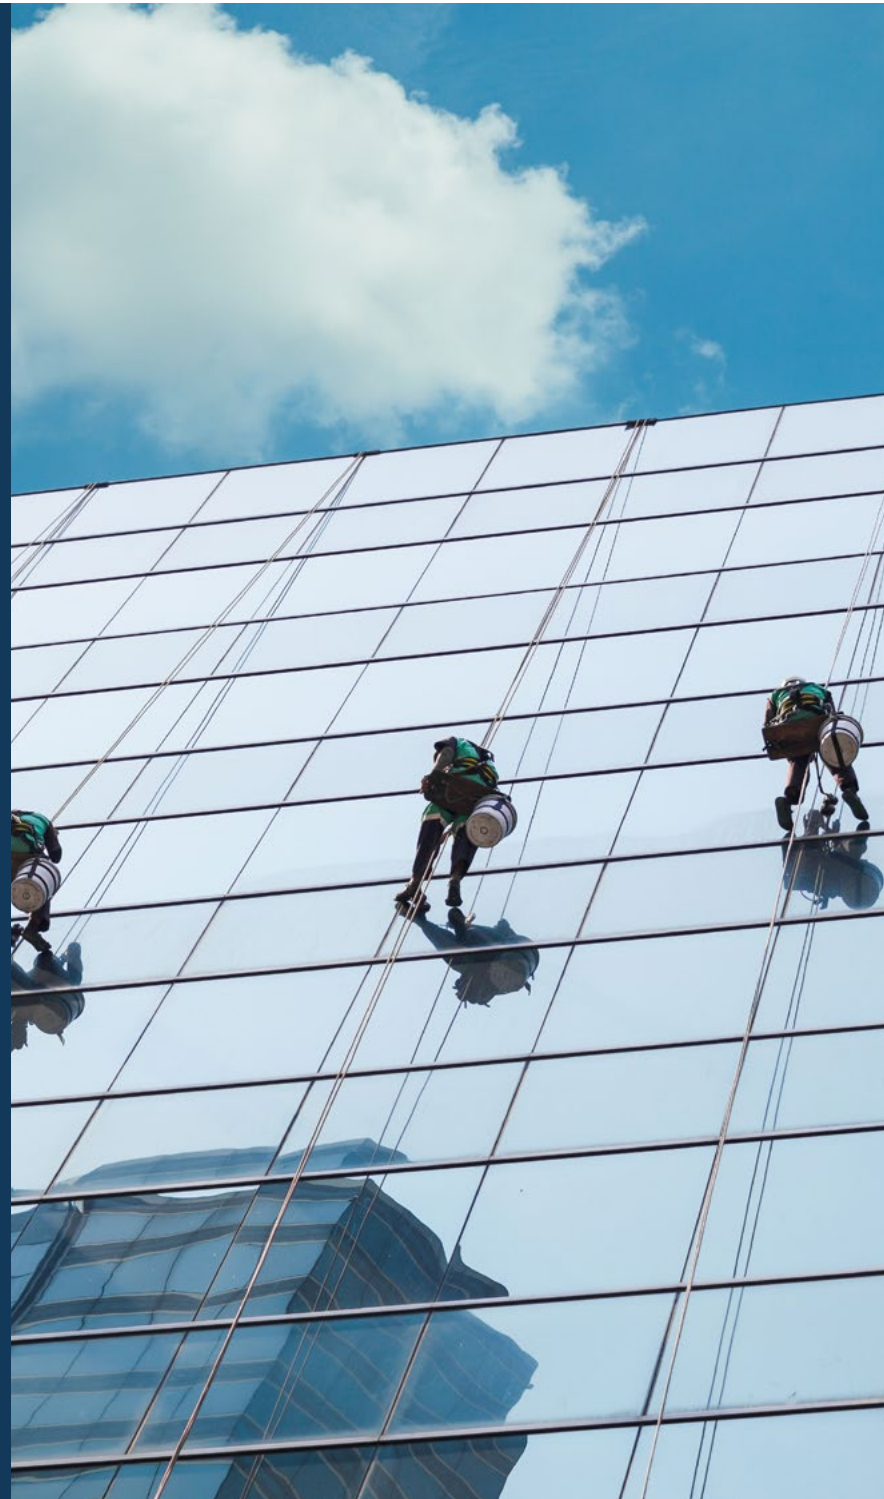

Our experienced team seeks to advance the performance of our clients assets beyond traditional norms by invoking and implementing facilities management functionality at the design stage of projects.

COST MANAGEMENT

Our team undertakes whole life cost modelling, forecasting & budgeting, service charge strategy and calculations, Reserve Fund development and overall control of costs with a clear focus on optimising operational efficiencies and reducing the life cycle costs of our clients assets.

TECHNOLOGY

Alexander Mac provides our clients the iFM platform, a unique software solution with related applications developed in-house by our technical innovations team. This improves efficiency and reduces operating costs whilst making the service delivery fully transparent via the web and cloud. We also work with existing CAFM systems where we add value to our clients IT investment.

3 SERVICES | FACILITIES MANAGEMENT

ASSET STRATEGY & PLANNING

We support the growth, development, performance and retained value of our client's property and asset portfolio with considered FM and asset management strategies focussed on the client's performance requirements and business objectives. We also undertake Asset Condition Surveys and Due Diligence, Disposal & Acquisition Management, Business Continuity & Emergency Preparedness, needs analysis and development of workplace and accommodation strategies.

FACILITIES MANAGEMENT

As Facility Managers we provide our clients with a single point of contact for the implementation and control of performance based facility management services. These include procurement management of sub contractors and performance management and tracking of KPIs, maintenance and service requests, help desks and related operations, health and safety, sustainability, overall service quality and risk. We also provide direct servicing that minimises duplicate margin charges.

BUSINESS CONTINUITY & RISK MANAGEMENT

We are specialists in the field of risk, resilience and business continuity. We support our client's companies to manage high impact risks and threats to their organisation by designing and implementing resiliency strategies that protect their employees, assets and key business operations. We provide Business Continuity program and policy management, embedding, analysis, diversification, transfer and recovery site strategies as well as full implementation and validation including auditing and benchmarking against global and UAE standards (ISO 22301).

4

SECTORS

OUR TEAM ARE HIGHLY EXPERIENCED IN THE MANAGEMENT OF ASSET CONCEPTION, DEVELOPMENT, EXECUTION AND FACILITIES MANAGEMENT ACROSS A WIDE RANGE OF INDUSTRIES.

WHATEVER THE ASSET CLASS, OUR CLIENTS BENEFIT FROM OUR SECTOR EXPERTISE AND PREVIOUS EXPERIENCE.

RESIDENTIAL | HOSPITALITY | OFFICE | RETAIL |
INDUSTRIAL | AVIATION | HEALTHCARE | MIXED USE

RESIDENTIAL

Residential development and execution is one of the core strengths of the Alexander Mac team and our partner organisations.

We have managed the development delivery and facilities management for over 400 residential apartments in Abu Dhabi, with our partners responsible for over 6,000 apartments currently in planning, design or construction phases. Our clients benefit from our strength in the successful delivery of residential projects.

OFFICE

The Alexander Mac team and our partners maintains a strong understanding and track record in the development execution and operational performance management of office and commercial buildings. We have successfully undertaken projects regionally and internationally building a strong portfolio of reference projects in this important sector.

MIXED USE

The Alexander Mac team has a wealth of experience in supporting the masterplanning and development process for small to large scale mixed use schemes. This includes sizable land banks and the consideration of the asset mix, density and phasing for projects in Sharjah, Abu Dhabi and Australia. Alexander Mac is well equipped to support our clients undertaking new mixed use or regeneration projects that underpin focused estate and business strategies.

HOSPITALITY

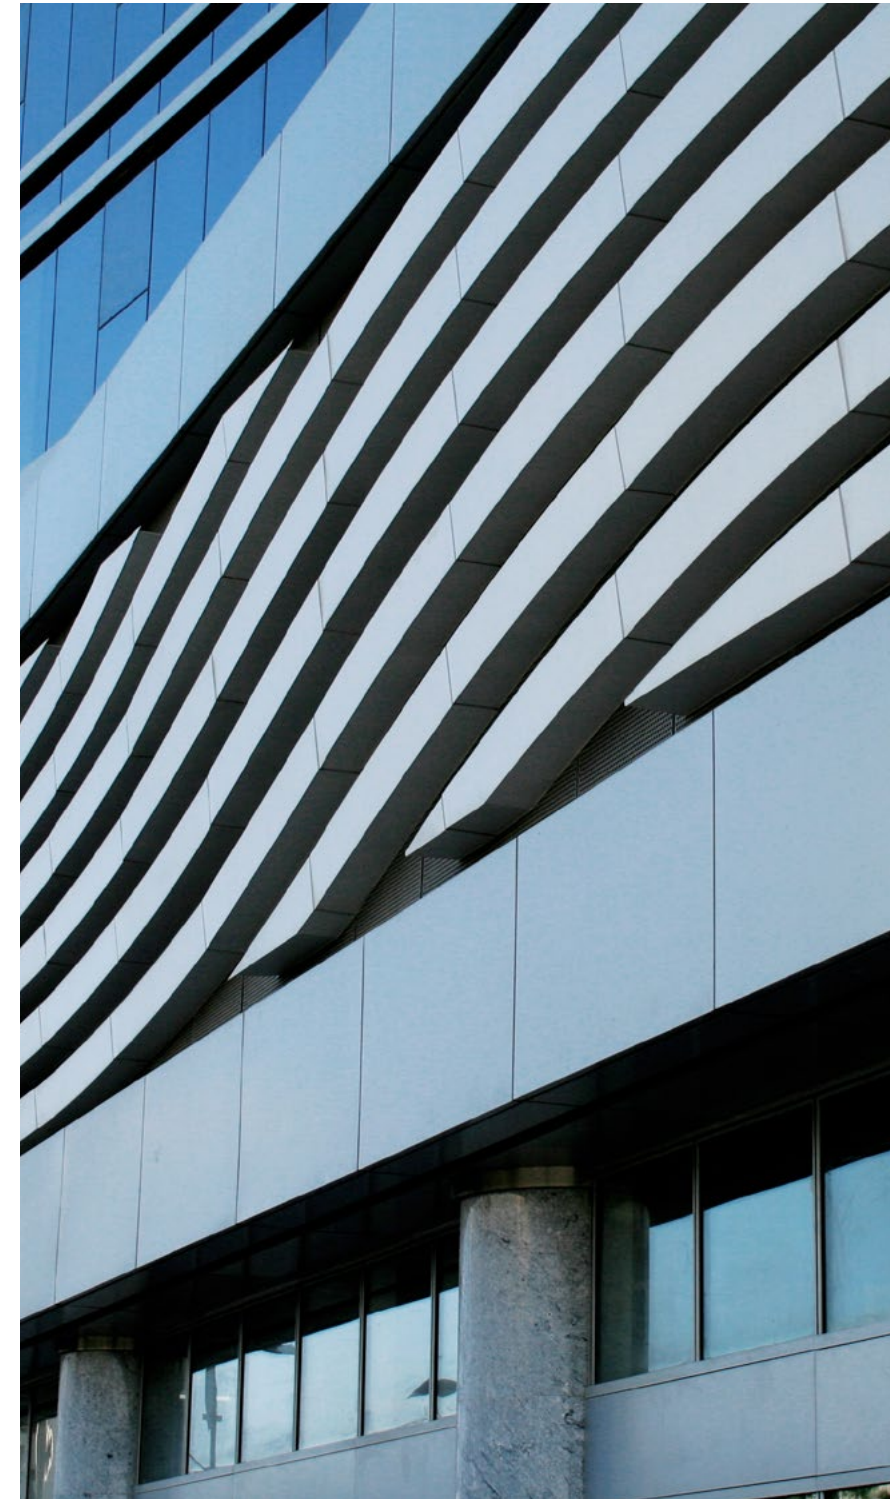

Our team has successfully contributed to the development of hotels in Abu Dhabi, Dubai, the Caribbean and Australia including working with a range of the worlds best known hospitality brands. Our clients benefit from our significant working knowledge of the hospitality developer model and asset delivery process.

HEALTHCARE

The success of hospital and healthcare developments is highly aligned to the ability of the working facility to efficiently, effectively and safely support the model of care they seek to deliver. Our team has been involved in the feasibility and design coordination of a number of healthcare facilities in the middle east and has supported the development of a Project Management Office (PMO) for a major government healthcare institution in Saudi Arabia. We continue to draw upon our expertise and experience in the support of successful healthcare and hospital developments for our clients participating in this unique and challenging sector.

INDUSTRIAL

The nature of industrial projects is vast and varied in size, functionality and related complexity. The Alexander Mac team is experienced in both warehouse and hi-end manufacturing facilities including the delivery of integrated facilities with world-leading technologies to meet client production requirements.

AVIATION

The Alexander Mac team has managed the construction delivery of terminal packages in Dubai and provided performance management for hard and soft service facilities management contracts across five airports in Abu Dhabi. Our team and partners continue to work for brand name airlines in Australia where our aviation expertise successfully supports our clients operations.

RETAIL

Retail and life style assets maintain a unique requirement in consideration of their development, conception, design, delivery and management in order to provide successful investment returns. The Alexander Mac team has supported retail projects in Sharjah, Doha, Abu Dhabi and Australia where our experience supports our clients to achieve target retail development outcomes.
