Zarnab 2941116

## Letterhead and Envelope

Reduce scale of logo on letterhead and envelope. Refer to **letterhead** in Zarnab 2941116 for the size of the logo on both letterhead and envelope.

Footer spacing looks too tight. We use 1.15 here. Please refer to brief for the correct fonts to use on all lettering. The footer on this document is an example of spacing not font. Please also not correct format of footer and placement of dots.

To be clear, there should be no red “Subject” as a permanent part of the letterhead.

## Portfolio

Please note the gradient blue behind the logo on Zarnab 2941116. This is the treatment of the blue that should be used on both the portfolio and in the card project you have already won.
