

I like the font style on Bruce. And I think the black & white looks good.

We like how they've used some colour in Dareto be and also the graduated grescale

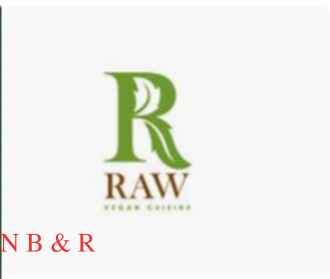

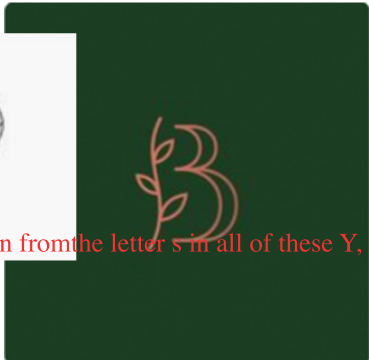

We like this very much - the font style, and the little graphic of the leaves and also the colour splash. Like it's simplicity.

We don't like this, but we like the idea of using the door. But I think this is ugly and boring.

A cool idea to incorporate an image that matches the words

We like the idea of leaves coming from the letter s in all of these Y, N B & R

Like this simplicity and the font is nice.

Clever to incorporate the tea bag & the house! If you can do something like this that would be good!

We like the font and the bold vs light text, and the little image (the heart) is subtle and in there too- cute!

We like how the colour of the lemon is outside the lines, it's creative & gives character.

We like the simplicity of this logo. We don't like the font, we prefer a bolder looking font

We like this - it's unqi & creative, but the font needs to be thicker

d2r

Perhaps something with just these letters "d2r?"
(Font used her is casting jewels- (we like this font)

door2raw

This font is called "Casting Jewels" it's quite nice for us. We came up with this ourselves to help inspire you! We quite like this, but think that you can improve it greatly!!!

Once again, this is a logo we have designed ourselves to help inspire you! We love the font (it's hand drawn, we created it ourselves) We need you to grow this idea and improve on it greatly. We also no longer like the idea of a big image (the lemon) it's too big.
