WELCOME TO MATHEMAGICS!

Mathemagics© has created a new exciting way to teach mathematics to South African children.

This program is specifically based on the school curriculum to help our kids exceed!

Now you can learn MATHS, AND have FUN!

SAMPLE

WHAT IS IT? Interactive educational software created to inform the youth of the many dangers they face in today's society.

The three characters: Harry, Isaac and Veronica presents us with real life scenarios in which kids may find themselves and leaves us with an enlightening and entertaining solution to these moral dilemmas.

REGISTRATION AND TECHNICAL SUPPORT HOURS:

Study skills are discrete techniques that can be learned, usually in a short time, and applied to all or most fields of study.
Study methods are approaches applied to learning. They are generally critical to success in school, considered essential for acquiring good grades, and useful for learning throughout one's life.

Study SMARTER rather than HARDER!

Achieve better marks by changing your study methods.
It is never too late to develop great study habits
Improve your memory by organizing your time better.
