

# Gulf Coast Port & Logistics Services

# Our Mission

---

To deliver premium transportation solutions and services across a wide variety of commodities and finished goods to meet the evolving needs of our domestic and international customers.

# Why Mobile?

**Easy access to the North American inland transportation network**

**Strategically positioned international gateway to North America with no congestion**

**Access to multiple growth markets in the gulf region**

# Connecting you to the world

Millard Maritime offers superior customer service and creative transportation solutions to help shippers get to market faster, more efficiently, and at a competitive price.

## Excellent Connectivity

Millard Maritime is the key link between the Gulf and the national transportation network. With rail, barge, and truck capabilities we can reach all of your customers with our efficient land transportation solutions.

## Quality Infrastructure

Our premium warehousing and on-dock facilities allow for safe, reliable transportation of liquid and dry commodities. We have the ability to expand and build to accommodate your needs.

## Flexible Service

We provide multiple options to suit your unique needs. Whether it's unloading, loading, cross docking, or delivery by rail, truck, or barge, our in-house experts can create a custom solution for you.

# Gulf Coast Port & Logistics Services

## Deep Water Access

Our 40 Ft. deep water 1600 ft dock with rail access, barge loading, and truck delivery capabilities, gives you multiple options for delivery

## Inland Barge Network

Our access to the North American inland waterway system supports multi-modal shipping and global trade into and out of the Central Gulf.

## Rail-Served

We move a variety of commodities, including aggregates, fertilizer, salt, and liquid commodities. We are CSX-served with a 90 car spot.

## Warehousing & Transloading

Our 240K sq.ft. warehouse and 6M gallon liquid storage tank is available for storage and transloading. We offer multiple storage capabilities for bulk and liquid commodities

## Over-the-Road

Our trucking partners provide line-haul, heavy haul, and tanker transportation services for delivery throughout North America.

## Industrial Development

We have nearly 300 acres for industrial development with deep water access. We can build to suit your exact needs.

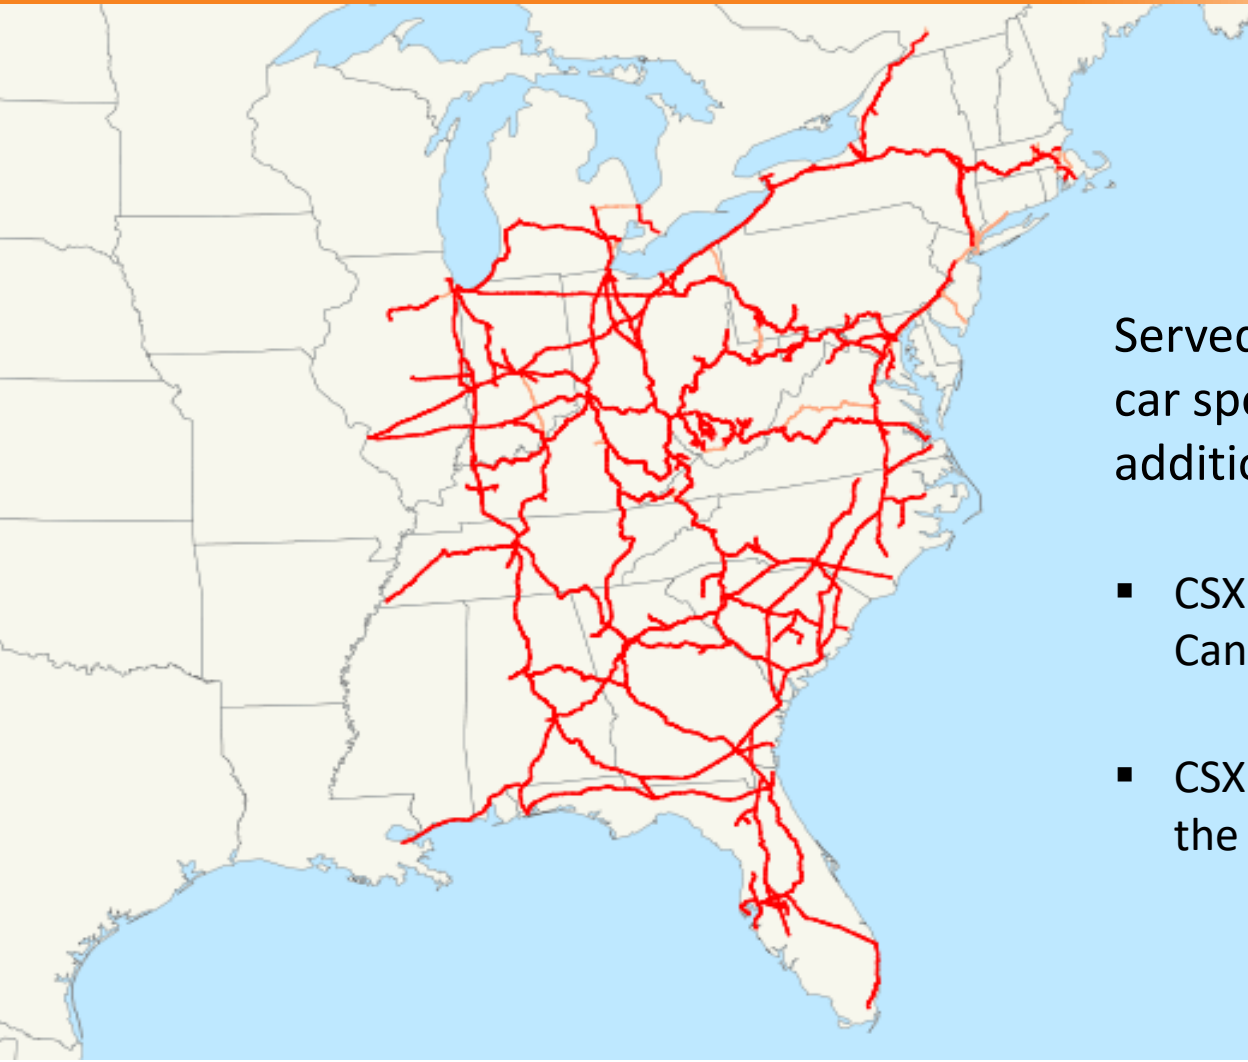

# Centrally located truck delivery

Millard is located in an industrial district allowing for high capacity road ways into and out of the terminal with no congestion.

- Easy access to interstates:
  - 6 miles to interstate 10
  - 10 miles to interstate 65
- One day delivery:
  - Nashville
  - Houston
  - Jacksonville
- Two day delivery:
  - West Texas
  - Chicago
  - Washington D.C.

# Direct rail service to the eastern United States

Served daily by CSX with a 90 car spot, with room to add additional track capacity.

- CSX serves 23 states and two Canadian provinces
- CSX serves nearly two-thirds of the American population

# Direct access to the Inland Waterway System

We are strategically located in the center of the Gulf Coast with direct access to the United States inland waterway system, stretching over 12,000 miles.

- Flexibility to load, unload, or transload commodities from barge to rail, truck, or into warehouse or liquid storage tanks
- Onsite barge fleet capacity for more efficient and timely loading and unloading

# Customized Industrial Development opportunities

We have nearly 300 acres of available land ready for industrial development.

Our industrial development specialists can assist in design, engineering, site prep, and construction.

We have ideal sites for warehousing, tank, and bulk storage facilities.
