CAREOUSEL PILL DISPENSER

**The Right Pills At The Right Time,
Delivering The Right Outcomes**

?How does it work

Hear the buzzer 2.Turn the dispenser upside down to release.1 .1

. the pills in your hand3.Take your pills

! It's that simple

At the pre-programmed alarm times, the dispenser makes the correct dose, and only the correct dose, available at the correct time. All other pills are safely locked in the dispenser out of sight, helping prevent an incorrect dose or an overdose being taken
