

Why work with Wise Sherpa?

The Wise Sherpa service offer is unique in being able to support senior corporate individuals as they transition to becoming entrepreneurs. In the next 5 years there will be a major transformation in our organisational workforce moving into the gig economy. Wise Sherpa is at the vanguard, working with experienced, mature professionals as they smoothly exit corporate life to start their own businesses, ensuring potential for income and professional growth and challenge. *We believe our experience in successfully treading this path ourselves differentiates us from our competitors.*

We are asked by clients whether there are any particular areas of expertise where working with Wise Sherpa is more successful? We are working with professionals from legal, finance, human resources, change management, supply chain, logistics, procurement and IT sectors in transitioning and setting up their businesses. The key is that they have solid professional experience and are keen to set up a business doing what interests them and what they enjoy.

Clients often ask when is the best time to work with Wise Sherpa? We usually find it is at the point where they are considering their options for a potential corporate exit (sometimes on notice of redundancy), or they have just left their corporate role. Often clients engage us on a career break when they have created 'space' to think about their future. Others are in a slightly earlier, more exploratory phase perhaps looking to set up their business alongside their corporate career before transitioning or as part of a portfolio.
