

Item: FL-100-M27

Migration of substances into foodstuffs

Legal bases, enactments, ordinances and directives:

- DIN ISO 719, state 1989-12; water resistance of finely crushed glass at 98° C, test processes and classification
- EC regulation 1935/2004 dated 27/10/2004

The glass actually sold corresponds to a conventional soda-lime glass and is tested according to DIN ISO 719:1985.

MIRON glass

Pb	...	<	20.0 ppm
Cd	...	<	2.0 ppm
Hg	...	<	0.5 ppm
Cr (VI)	...	<	2.0 ppm

Declaration concerning the REACH-Regulation

Legal bases, enactment, regulations and directives:

- Regulation (EC) No 1907/2006 of the European Parliament and the Council dated 18/12/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) as amended by the Commission Regulation (EC) No 987/2008 dated 08/10/2008 as regards Annexes IV and V of Regulation (EC) Nr 1907/2006

The products of the glass industry (e.c. container made of glass for packaging use) are articles in the meaning of the REACH-Regulation, because the function is mainly determined by form, design and surface and not by its chemical composition. Therefore no obligation exists to register these articles according to the REACH-Regulation.

On the supply chain side we have ensured that all raw materials which are used within the manufacturing process of the glass are compliant with the requirements of the REACH-Regulation, especially in case a pre-registration should be necessary.

Certificate: ANALYSIS

Glass containers are manufactured in conformity with standards referred to certificate No. CN-06/2016, issued by IKATES, s.r.o., certificate authority no. 225
