About Let Me Out's Big Events

Let Me Out has designed and delivered large scale events for groups of up to 350 pax in recent years. We are meticulous in our planning to ensure that the flow of the event keeps everyone engaged, entertained, safe and included.

No two large events are the same so we bring our all our Inventive creativity, event management expertise and planning skills to the fore to design an event that works for you based on your objectives, the make up of your people and the spaces available to play in.

Our core team building challenges and activities are custom designed to create a sense of connection, team work, creativity, strategic thinking and freshness for groups at all levels of their organisation. Taking part in a Let Me Out event will help develop knowledge and understanding within teams, trust and collaboration between people and re-ignite their energy to tackle work and personal challenges for the year ahead.

Testimonials

What People Say About Us

“Let Me Out are an extremely well organised, easy going and efficient team to work with. We have worked together on many projects and Del and her team are always really competent and accurate their communications. Let Me Out are a very fun and happy team to work with, who I can highly recommend”. CABLE BAY VINEYARD

“I just wanted to share a quick note and let you know that Let me Out do a fantastic job of organising and facilitating company events and social occasions – especially at short notice and with the curve balls that my company like to throw in!

It’s really great how easy you are to deal with, how after a short conversation you know the business and tailor the solutions you offer to the business needs, wants and quirks. You definitely make my life as an EA easier I’m so happy to work with you. Thanks, Del & Cushla!”

SUSTAINABILITY ETHOS

Let Me Out adopts sustainable practices throughout its business and event management projects ensuring that stock, props and collateral are ethically sourced to minimise waste and to create only a positive impact on the environment.

We tackle any new equipment design challenge with a passion for upcycling, reusing and using natural and sustainable products, minimising waste and new plastics as much as possible.

We use eco friendly, compostable containers for our large scale Taste Challenges and catering; all waste is sorted during events into recyclable, compostable and landfill bins; our company E-Bikes and public transport are our preferred method of travel, whenever practical during our working lives, to help reduce fuel consumption and lighten the load on our roads.

We are also passionate about creating a sustainable business that values people above all else, providing flexibility and time for staff to be more than just employees and active individuals who take time out for themselves, for their families and for their communities.
