

# WE AUDIT THEIR AUDIT

## WORK COMP RE-AUDIT SERVICES

**We will guide you through your worker's compensation audit while representing your interests.**

Comp360 knows how difficult it can be to understand your worker's compensation audits. On average, carriers generate an additional 15% premium from year end audits. Approximately half of the year end audits we review have errors. We will work for you to get these revised, which results in lower net premium for the client. Florida Statute allows certain mistakes to be corrected for the current policy year.

***"We received a year end audit invoice totalling \$33,191 for our 2006 policy and we were on a monthly self audit pay plan. The revised invoice totaled \$4,066 after Comp360 performed a re-audit for us. Comp360 saved us \$29,000 in premium."***
