

# PREMIUM RECOVERY

**“Comp360 recovered a total of  
\$89,600 of premium for us.”**

**Florida Glass of Tampa Bay, Inc.**

**Kick back while we lower your worker's comp**

## **WHAT WE DO**

**We perform a forensic audit of your worker's compensation program. We detect and correct the profit leaks, resulting in premium being refunded to you.**

As a licensed Agency that specializes in Risk Management, we pride ourselves in knowing every aspect of workers' compensation.

We have performed audits with various carriers and consistently find mistakes which result in a refund to our clients. The average recovery is between \$15,000 to \$40,000 (depending on your annual premium size). We will educate you on how to effectively manage your worker's compensation for years to come.

## **COMMON MISTAKES**

**There are approximately six to twelve mistakes found in every worker's compensation policy.**

- Incorrect Experience Modifications
- Incorrect Classifications
- Incorrect Dividend and Retro Calculations
- Incorrect Claims and Subrogation Filings
- Program Design That Does Not Match Historical Losses
