

# About PCI SERVICES

At PCI we strive to be the one stop shop for all of your mechanical needs. Our fabrication shop can produce everything from large bore pipe fab to small steel parts. Our piping installation team has the expertise to handle a wide range of materials whether it's copper, stainless steel, carbon steel, whatever the job calls for. Our HVAC Service Dept. can service and install the equipment that is cooling or heating your office or plant; from chillers & cooling towers to roof top units and more. Do you need backflows tested or have a backed up drain? Our plumbing staff can provide you with the service you need as well as perform new installs.

## PIPING

When it comes to piping fabrication and installation look no further than PCI. With 35,000 square feet of shop space that includes 35 welding machines and 20 positioners we are set up to take on a wide variety of welding jobs. We can take a piping job from start to finish by building to customer specifications or partnering in turnkey installations to offer a cost effective mechanical solution. Pride in our work, coupled with a highly trained and capable workforce, yields consistent, high quality, fabrication and installation day after day. We have experienced project managers, draftsmen, field supervision, and craftsmen knowledgeable in the specific needs of our industry. Our welders are certified through ASME Section IX, the most stringent requirements in the industry, and are approved by the State of Ohio.

## HVAC

Our HVAC division specializes in all types of commercial and industrial heating, ventilating, cooling, refrigeration, and controls work. We offer 24/7/365 emergency service as well as new installations. Our various HVAC capabilities are a product of our strong workforce. Our craftsmen's abilities are very diverse which allow us to serve the numerous issues that arise in the HVAC industry. We realize that time is of the essence and put great emphasis on immediately tending to our customer's needs. If you're looking to save money we can provide you with energy saving options in regards to your equipment.

We have the capabilities and tools to service or install: Boilers, Cooling Towers, Chillers, Hydronic Heating Systems, Air Compressors, Exhaust Fans, Air Handlers, Unit Heaters, Rooftop Package Units, Furnaces, Kitchen Equipment and much more.

## PLUMBING

With many diverse plumbing capabilities we know how to take care of anything that our customers need. We can handle a small leaking faucet to a major sewer line break. Any emergency service issues that may arise, we are here to do the dirty work. Not only can we handle any unexpected plumbing problems but are fully capable of any new installation or remodel that you might be interested in.

Plumbing emergencies can cause additional damage to your property in a number of ways if not addressed immediately. We understand the urgency which is why we put such a great emphasis on immediately tending to our customer's needs. With 24/7/365 service as well as new installations capabilities we are here for all of your commercial and industrial plumbing needs.

*We provide 24/7/365 service for any piping, HVAC, or plumbing emergencies. You can count on PCI to be there at any time to handle any mechanical failure and keep your office and/or facility functioning properly.*
