

## At Dr. SF Essentials

our Doctor formulated Natural Air Purifying Bags harness the power of nature by combining **Activated Bamboo Charcoal Plus Activated Clay Moisture Absorbing Beads.**

**Why is this important?** Bamboo Charcoal is a fantastic odor absorber, but becomes less effective when these odor absorbing pores are blocked by moisture molecules. To overcome this limitation, Dr. SF adds 100% non-toxic activated clay moisture absorbing beads. These clay bead's primary (and sole) job is absorbing moisture, allowing our Activated Bamboo Charcoal pores to take in all those funky smells, odors, pollutants, allergens and bacteria.

## Instructions

Our dynamic and functional air purifying bags can be used almost anywhere. **Need a hint?** Use throughout your home, closet, Tiger's litter-box, garage, kitchen, refrigerator, shoes, gym bag and car, just to name a few.

### Revive

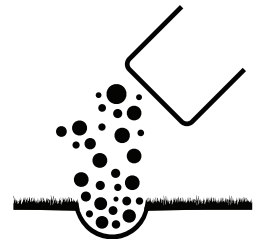

Place in direct sunlight for one hour, once per month.

### Reuse

Purifies your home for up to 2 years!

### Recycle

Don't toss me! After 2 years, release me back to the earth. A garden is a great place.
