

# Jewett Construction Core Values

*The Jewett Construction Company Core Values determine who we are.*

*They guide our every action in the office and in the field.*

*They outline what we believe in and how we behave.*

*By adhering to these principles, we build value in everything we do.*

## Passion and Ambition

Our passion for building began in 1972 from humble New Hampshire roots and remains at the heart of our company. We are continuously building, moving forward, innovating, and improving.

## Respect

We treat our team members, clients, partners, and subcontractors with mutual respect. We honor all individuals and value their contributions. We leverage the collective knowledge and experience of our staff and we welcome every viewpoint.

## Direct and Honest

These two words are the foundation of Jewett and the only way we conduct business. We do what we say.

## Shared Success

Shared success drives our process at Jewett Construction. We create solutions where our clients, project teams, community, and our company win.

## Family

It's all about people, always has and always will be. People matter more than anything. We care about each and every person we work with. We care about results, but not at the expense of people. Everything we do builds our extended family and builds trust.
