

GrassRoots Marketing

What We Do

- We provide monthly payments to businesses for allowing us to advertise local businesses on a TV screen in your place of business.
- We provide the TV screen if you prefer (professional installation on our dime)
- We provide a win/win for the businesses that partner with us. Our business partners get paid to support local businesses.

Benefits of Partnering with GrassRoots Marketing

- WE PAY YOU!
- We advertise local businesses and business owners. We encourage them to stop by your establishment to check out their ad. This will create more foot traffic to your business.
- Waiting Rooms: Studies show perceived wait time can be decreased by up to 33% when there is digital signage present. This can make your clients' 60 min wait feel like a 40 min wait.
- Professional ticker at the bottom of the digital design can display sports updates, breaking news, and weather. Our design approach makes your business look more professional.
- Did we mention that we pay you?!!!

Effortless Process

Day 1: Sign on to partner with GrassRoots Marketing.

Week 1: We install a HDMI/USB drive to the screen. Our onsite time for this is less than 10 minutes and this WILL NOT disrupt your business operations. In fact, you may not even notice we came and went. (We can use an existing screen or install a new screen at no cost to you if space permits)

Week 1-8: We will be loading our local advertisers' professional designs to the screen. (This is done remotely and does not require us to come in)

End of 2nd Full Month: Process is complete, and you will be receiving monthly checks!

Notice your involvement is only in the first and last step. Sign-up. Get Paid.

We will pay you _____ each month. Call for details_____.
