

MONIKA

I have exciting and bittersweet news I want to share with my Marina Hills clients, friends and neighbors. After 40 (something) years in the Real Estate business, I have decided to retire. Some of you may last month I sold my Marina Hills home and moved to the beautiful Reata Glen community in Rancho Mission Viejo. My husband and I wanted to scale down and have time to enjoy retirement, together. I have been so blessed to have had an illustrious career in Real Estate and I want to thank you with a most grateful heart for giving me the opportunity to work with you. I have enjoyed every minute.

I'm happy and proud to be turning my business over to Linda Battisti, fellow Re/Max agent. She and I have enjoyed a very close working relationship for many years and there is nobody else except Linda I'd consider turning my business over to. Linda is....I will add verbiage here conveying your thoughts about me. Please contact me if you'd like a personal introduction to Linda or contact her directly. Remember to mention me when you contact Linda and let her know that we know each other. I wish you the very best and please say hello when you see me in the neighborhood.

LINDA

know many of you, but for those whom I do not, I'd like to introduce myself. I've been a resident of Marina Hills for almost 23 years now. I've loved our neighborhood from the first time I discovered it. From our beautiful parks to our fabulous pool and amenities, it's hard to beat our wonderful community.

I always say where we live is the next best thing to living on a tropical island. I've traveled to many and I'm always happy to come back to my Marina Hills home. My passion for this area is why I'm in Real Estate. I consider myself incredibly fortunate to sell homes and help people purchase homes in an area that I love with all my heart.

Monika and I have been close colleagues for the last 8 years, both working as Realtors and long time residents of Marina Hills. I am most grateful for our working relationship and the friendship we have formed. I am humbled by her trust and respect for me. Please feel welcome to call on me for all things home-related. I will look forward to meeting you!
