

Request: Logo for website / Favicon for website / Icon for social media sites

Company Name: Squeeze Teeze

Domain: squeezeteeze.com

Purpose: Printed T-shirt Sales

Font: Chalkduster (Regular) or similar

Colors: Monochromatic preferred but no more than 2 colors if it helps the contrast between elements

Description:

- I want something that plays on the two words "Squeeze" and "Teeze" where the "Squ" and "T" are paired together with the "eeze" following them somehow (see example).
- I want the font and style to be grungy.
- I'd like a graphical representation of something t-shirt related integrated into the design. The same graphical representation can be used for the Favicon and Social media site icon
- If you have a different spin on this that conveys the intent of fun and artistic clothing I'm definitely open to a different perspective so go crazy ;-).
