

Studio Riadatto

Illustration Brief

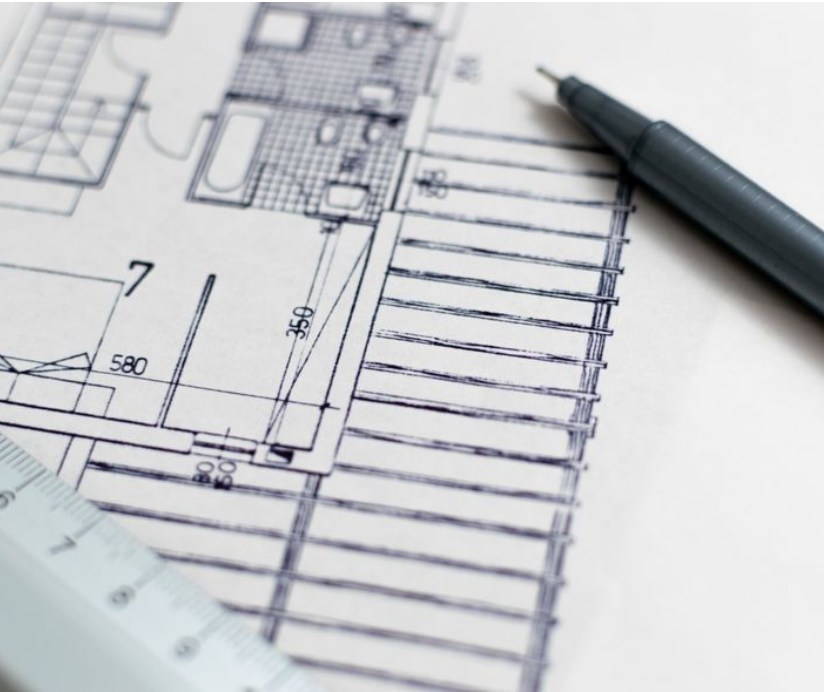

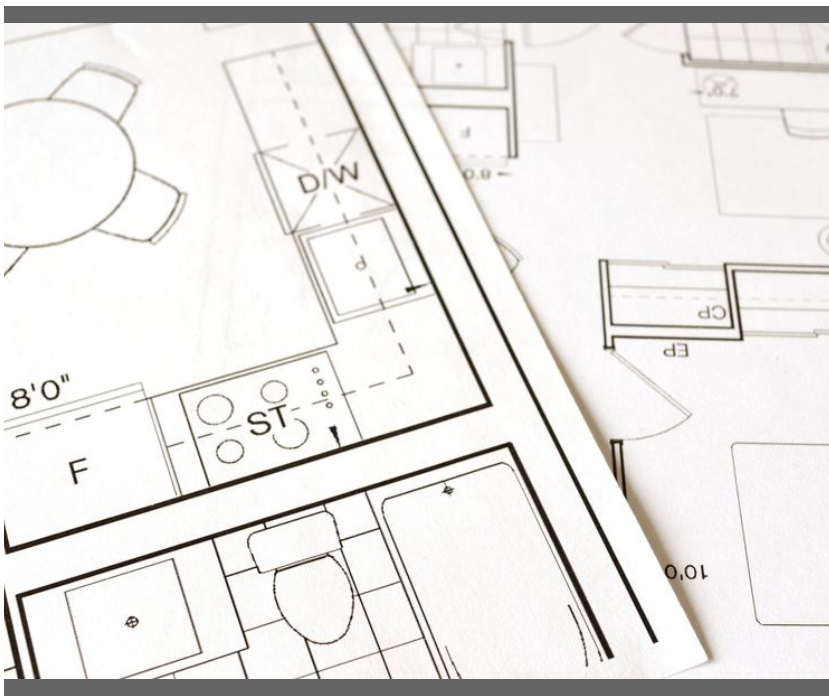

Riadatto is an architecture and engineering studio based in Milan, Italy.

We work for both the public and the private sector and we're passionate about innovation and sustainability.

Riadatto in Italian means literally readapt because we strongly believe that a truly sustainable approach must be multi-focused and consider the people, the environment and the economics, in any individual situation or community.

We'd like for the illustration to reflect those concepts.

The design should be simple, modern, minimal and elegant.

EXAMPLE OF WHAT WE DO

Redesign of a school using up to 80% recycled materials to reduce energy consumption

Home renovations

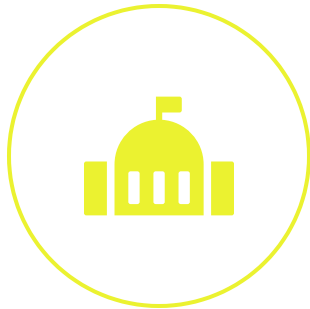

Design and implementation of home automation

Regeneration of a 15000 sq mt abandoned area into the go-to location for food, retail, arts and crafts in Milan, Italy.

Design of a private terrace with a built-in pool in the center of Milan

Riding school renovation

TARGET AUDIENCE

PUBLIC SECTOR

PRIVATE SECTOR

**SPONSORSHIP AND
ENDORSEMENT BY DESIGN AND
HOME AUTOMATION COMPANIES**

WHY RIADATTO

We chose to call our studio Riadatto because RI is the Italian for the suffix RE that is present in almost every keywords that we underlined.

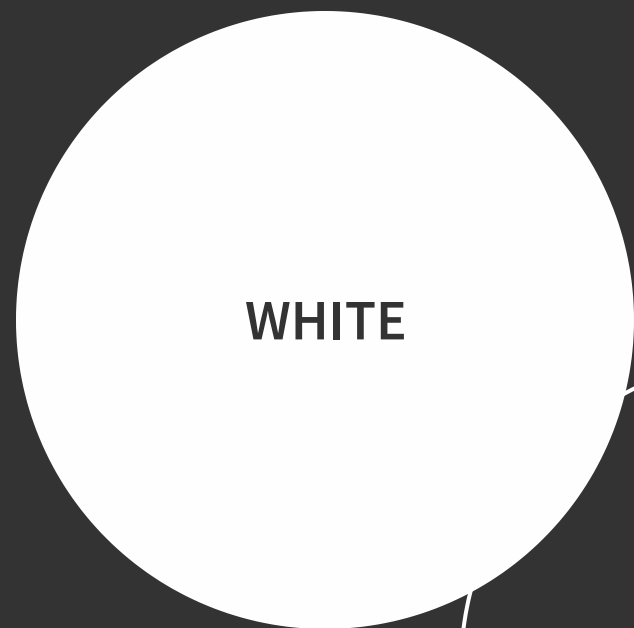

WHAT WE WONT - ILLUSTRATION (horizontal)

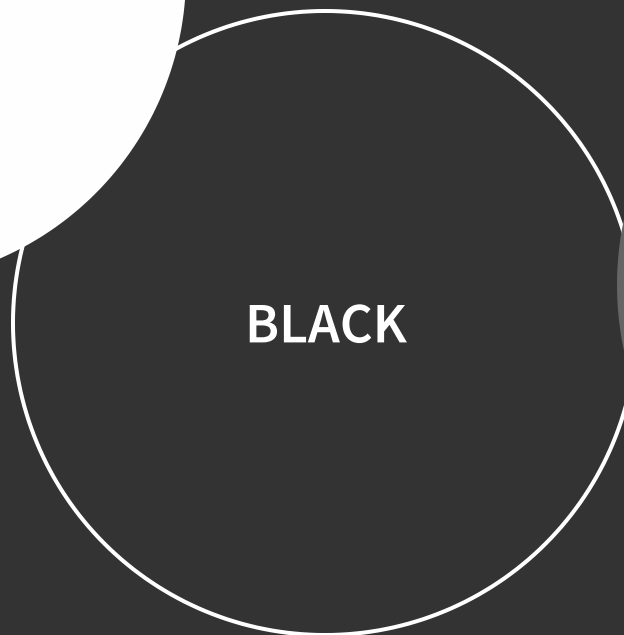

- it should have both architectural and engineering components in it
- it should explain the process in our work, from the idea to the realization of the project. So drawings, work in progress and then the finalization of it. We work both in the private and the public sector. So the end project could be a home or a bridge.
- we want you to be free to interpret the idea. Give us your best shot!

ILLUSTRATIONS WE LIKE FOR REFERENCE

A word cloud on a dark gray background featuring various terms related to disaster recovery and resilience. The words are arranged in a circular pattern, with some oriented horizontally and others at angles. The color palette consists of white and yellow. The word 'ENGINEERING' is the most prominent, written vertically in yellow. Other large yellow words include 'SUSTAINABILITY', 'RECOVER', 'ARCHITECTURE', and 'STRENGTHEN'. White words include 'RENEW', 'RESTORE', 'REINFORCE', 'MODERNIZE', 'REBUILD', 'RESCUE', 'REGENERATE', 'RECONSTRUCT', 'RECREATE', 'REHABILITATE', 'ADAPTATION', 'RIADATTO', 'DESIGN', and 'COMMUNITY'.
