Wedding Brochure

Howdy!

Thanks for taking the time to have a look through our brochure. This is intended to give you an overview of what services we can provide and give you examples of the work we have done for previous clients. But first a brief intro on who we are and how we came to be.

Green Claws is owned and run by Victoria and Myself (Damian). I have been involved in the wedding and events industry since my earlier teens starting out as a DJ over 20 years ago. Weddings are always my main focus and I love helping couples bring some extra magic to their wedding day. I also spend time as a lighting technician and technical AV support for exhibition stands and get to travel throughout Europe for this. Victoria and her family have also been involved with live events before we became a couple. They were part of theatre productions and technical shows and Victoria was also part of a live Swing Band in her youth.

We love working with people on there wedding day and creating something that will take your breath away when you walk into the room. After working for years for Weddings and Events in both the UK and Europe I will tell you exactly what I think will or won't work, I won't ever try to sell you something that you don't need and will only offer suggestions if they will enhance your day. Every suggestion I make is based on the many years of knowledge and experience helping others create that magical Wedding Day.

If you ever have any questions whatsoever please feel free to email or call me
damian@greenclaws.co.uk

Dance Floors

Dance floors are an integral part of any party. I believe that I carry the largest variety of floors in the UK, I am confident I can find help you choose one that suits both your style and your venue. Why not create a little magic and add one with a little sparkle or maybe add one to match your colour scheme? Want to go even further ...well you can with our completely custom dance floors.

Custom
Starlit
Coloured
Black and White

The size of the dance floor required is determined by the guest numbers and also the size of the venue itself. Set up can normally be completed within an hour.

Dance Floors

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

Custom Floors

The custom floors that can be created are only limited by your imagination, we can embed any style of design within a dance floor and as the images are protected by clear acrylic it will look as good at the end of the night as it did at the start. Some of the custom floors we have created in the past include a Disney floor, Snowflake, Zebra Print, Giraffe Print and a Gatsby Theme to name just a few.

A minimum of 16 weeks from design proof to delivery date is required for custom floors.

Starlit

Our starlit dance floors are in either white or black finish. The White dance floors can come in either white LED or colour changing LEDs. Our Black Starlit dance floors come with pure White LEDs. To have a real dramatic first dance why not book our dry ice machine to complement the starlit dance floor.

Coloured

The coloured dance floors are unique to us and really do bring your wedding colour scheme into the evening reception. You can choose to have either a completely coloured floor or offset it with black or white sections for a stunning contrast. Colours include Red, Pink, Purple, Green, Yellow, Orange, Blue & Gold with more being added in the upcoming months.

Black and White

Its classic, that is all that needs to be said about a black and white dance floor. Weddings, Gala Dinners, Christmas Party Nights. The black and white dance floor always seems to create the luxurious effect that people want.

Giraffe Print

This Giraffe print dance floor was designed for some weddings at Twycross Zoo. It has also been used for a safari themed wedding.

White & Snowflake

The snowflake dance floors is extremely popular at any Winter Wonderland event or Winter inspired Wedding theme. Choose to have a complete snowflake dance floor or add squares to a pure white floor.

Pure White Non LED

Elegant yet simple but so very effective. Our pure white non led dance floor always look great for a first dance and is very in keeping with a traditional white wedding.

Black & Red

Black and Red Stripped dance floor for a unique wedding couple. You can have a pure red or pure black floor if you would like or alternate squares to create a bespoke pattern.

Purple & White

This is one of Victoria’s favourite floors. A purple and white offset chequered dance floor. This design has proved very popular over the years. You can also have purple stripes or a completely purple dance floor.

Black & White LED

You can add our black and white Starlit panels together to create a variety of different patterns. This floor was black with a single white stripe. To match the Black and White Wedding Theme.

Pink

We were the first company to offer a pink starlit dance floor. It is as popular today as it has ever been. If you have a pink wedding theme there is no better way to start the party than by having your first dance on a pink dance floor.

Black Starlit

The black starlit dance floor is a classic and always sets the right tone for any party or evening wedding reception.

Light Up Letters

Light up letters are a great photo opportunity with guests. I carry almost the entire alphabet and also symbols too. You are only limited by your imagination and the size of the venue. Be creative with what letters you want or choose from some popular ideas

- Initials
- Words
- Venue
- Names

Most of the letters are 5’ Tall they all use very low powered LEDs which means we can use lots of letters without drawing too much power.

Light Up Letters

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

Initials

Why not have your initials with either a heart or an ‘&’. It is a perfect way to make your wedding day more personal especially when you use the letters as a photo opportunity.

Words

Be creative and come up with words that really capture you both. Or maybe create a hashtag for your wedding day (hashtag is available too)

Venue

Your venue in lights is a great photo opportunity so that guests never forget the venue where you got married.

Names

If you have the space (or just small names) you could even have your names in light. A surname always look great but first names can also add a real personal touch too.

Backdrops

Hiring a backdrop from me requires no fixing points at the venue, as we use a telescopic support stand that means we can get the perfect fit. A black backdrop with LEDs or white pleated fibre optic backdrop is available. Heights of the backdrops can range from 3m to 6m high and multiple backdrops can be added together to create any length that you wish. Our backdrops have many uses but here are a few popular ideas.

- Hide Walls
- Entertainment Backdrop
- Behind Top Table
- Cover Areas / Section Off Rooms

Backdrops

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

Hide Walls

A Backdrop can be used to hide unsightly walls or to hide decor in the venue that you may not want in photos.

Entertainment Backdrop

A great place to use a black backdrop is behind the band or DJ for the evening. It frames the performance area and really highlights the entertainment that you have booked.

Behind Top Table

Our white pleated backdrop is great behind the top table meaning that all the photos of you have a crisp white backdrop.

Cover Areas

If you have areas you do not want people to use or to section off part of a room our backdrops can do that too.

Moodlighting

I Love Love Love Moodlighting Thousands of shades of colours are available with the moodlighting (or uplighting as its also known) Moodlighting is one of the most simple and cost effective ways of transforming a venue. Best of all that almost all venues will benefit from moodlighting.

You can choose either a single fixed colour or multiple colours to create a alternate colour mix effect.
For something even more creative we can link the units together and create stunning light shows.

New battery uplighting means I can now position moodlighting practically anywhere even if there are no plug sockets.

Moodlighting

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

Transformation

By adding moonlighting we can transform any venue by adding a set colour to the room. You can choose from thousands of different shades of colour.

Subtle

Subtle can always be a good option for the wedding breakfast but as the night draws in the moodlighting will then become more vibrant and change the look and the atmosphere within the room.

Battery Moodlighting

New battery moodlighting units can last for up to 16 hours and means the units can be positioned much more quickly and in places where there is no power sockets.

Colour Changing

If you really want to make the party then the units can be linked and pre-programme patterns make the units change colour to the beat of the music.

damian@greenclaws.co.uk | 01386 305 104

Blossom Trees

Blossom Trees make a beautiful feature in many locations. They can be placed at the end of an aisle so you get married beneath them. At either end of a top table for your wedding breakfast. You can even have them placed over the dance floor too.

The blossom tree arch stands 3.2 m tall and comes in either cream or pale pink.

There is also the option of standard blossom trees which are either 1.4m or 1.8m tall. Again these come in cream or white.

Blossom Trees

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

Pink and Cream

Mix and match your colours with both the pink and cream trees.

Cream

The cream blossom trees are ideal in almost any venue and especially work well with subtle natural colour themes.

Pink

Why not add a touch of colour with the pink blossom tree arch.

3.2m Tall

The blossom tree arch stands at 3.2m tall and easily allows people to walk underneath the branches.

Photobooth

I think a photobooth is a fun part to the evening and everyone gets a keep sake of the day. All of the photoboth packages come with the following as standard.

- 3 Hours Use Time
- Duplicate Prints
- Digital Copies of All prints After the Event
- Unlimited Visits
- Guest Book
- Large Selection of Props
- Custom Designed Print Template
- Choice of photobooth Skins
- Fully Manned

Photobooth

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

Printed Images

A designed print template with your colours, names, date, venue etc can all be customised to your exact requirements.

Christmas Design Booth

If you are having a Christmas Wedding / Party then our Santa's Grotto photobooth skin is definitely one to choose.

Plain White Booth

The plain white photobooth skin is perfect for almost any occasion or wedding style.

Props

There is a vast amount of props for guests to choose from including signs, hats, wigs and other fun items.

DJ & Disco

The very small and highly skilled Wedding DJ team have performed events for Green Claws for many years. Highly experienced in Weddings, they will do anything and everything possible to keep guests on the dance floor.

There are 2 types of set up available to book, our standard disco set up is all black and the White set up is all white. Music requests can be done prior to the event (you will have access to your own online music request site) or you can make requests on the night. A vast collection of music is carried by each DJ, and they have the knowledge to know which tracks to play and when.

My DJs are happy to work alongside other musicians or I am happy to recommend bands that I have worked with in the past.

DJ & Disco

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

White Disco Setup

The white disco set up really does look the part at the evening reception of any wedding day. Including white DJ booth, White Speakers, White Lighting and White Stands.

Equipment

Equipment doesn't make the party but it can break it if it doesn't work correctly. That is why backup equipment is always carried and regular maintenance is carried out.

Standard Disco

The standard disco is exactly the same as the white disco set up - except everything is black instead of white. The DJ booth has a black starcloth frontage and the speakers and lighting units are all black too.

Music & Requests

You will have access to your very own music request site so you can choose music and put them into 3 separate music lists. These are "must Play", "Play if possible" and "do Not Play" You can even give guests special access so that they may make request prior to your day.

Special Touches

The special touches are just those little things that you may not have thought about or didn't even know existed.

Dancing on Clouds
Mirror Ball Clusters
Gobo Projection
Video Projection
Outside LOVE
Fairy Lighting Canopy
PA System for Wedding Breakfast
Chiavari Chair Hire
Postbox
Table Pinspotting
Outdoor Moodlighting
Special Effects

Special Touches

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

Dancing on Clouds

Dancing on clouds is magical for a first dance, it is created by using Dry ice to give the illusion of clouds drifting across the dance floor (looks awesome with a starlit floor). The effect hugs the floor and rarely goes above 50cm from the ground.

Mirror Ball Clusters

Mirror balls have become popular once again. So why not hire the mirror ball cluster complete with either white or colour pin spots? They range in size from 30cm - 50cm.

Gobo Projection

A custom stencil is designed for you. This gobo is inserted into a lighting unit so the light can project onto the dance floor or walls of the venue. Names, Date, or special messages can all be created.

Video Projection

Video projection can be used to display photos or other memories on display screens throughout your day. It is also a great tool to use for speeches in the wedding breakfast. Either video screens or projectors and fast fold screen can be hired.

GREENCLAWS

Special Touches

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

Outdoor LOVE

These 5' tall LOVE letters are covered in artificial grass and are fully weatherproof meaning they can be placed outside for some great daytime garden photos.

Fairy Lighting Canopy

A fairy light canopy is used to add that magical ceiling twinkle effect. It especially works well in barns and old buildings to add extra white light.

PA System

In the wedding breakfast you may require background music or microphones for the speeches. That is when you need to hire in our Wedding Breakfast PA system.

Chiavari Chair Hire

The limewash Chiavari Chair is a beautiful addition to any wedding or event. Coming with ivory seat pad.

Special Touches

www.greenclaws.co.uk

damian@greenclaws.co.uk

01386 305 104

Postbox

The post box is lockable and makes it secure for anyone wishing to leave cards which may contain money. At the end of the night the postbox is then emptied.

Table Pinspotting

To create an intimate dining experience lighting can be positioned to highlight each table and then the main house lights turned down or off. This creates a fantastic intimate atmosphere no matter how many guests you have.

Outdoor Moodlighting

Using outdoor moodlighting will bring your wedding colours to the grounds of your wedding party. Highlighting buildings and trees always looks spectacular as the night draws in.

Special Effects

Flame Machines, Snow Machines, Smoke, Hazer, Bubbles, Mirror Balls and Animation Lasers are just some of the items that can be hired to create a truly bespoke wedding day package.

Ettington Park

Ettington Park is located just outside of Stratford Upon Avon in Warwickshire. We have been a part of over 500 weddings or events at the venue to date with many more already booked in the diary.

So many options work so well at Ettington Park, but the biggest impact comes from the moodlighting, starlit dance floor and backdrop combination which works very well in both the Long Gallery and Great Drawing Room

On the next page you will find examples of our previous work at weddings and events at Ettington Park.

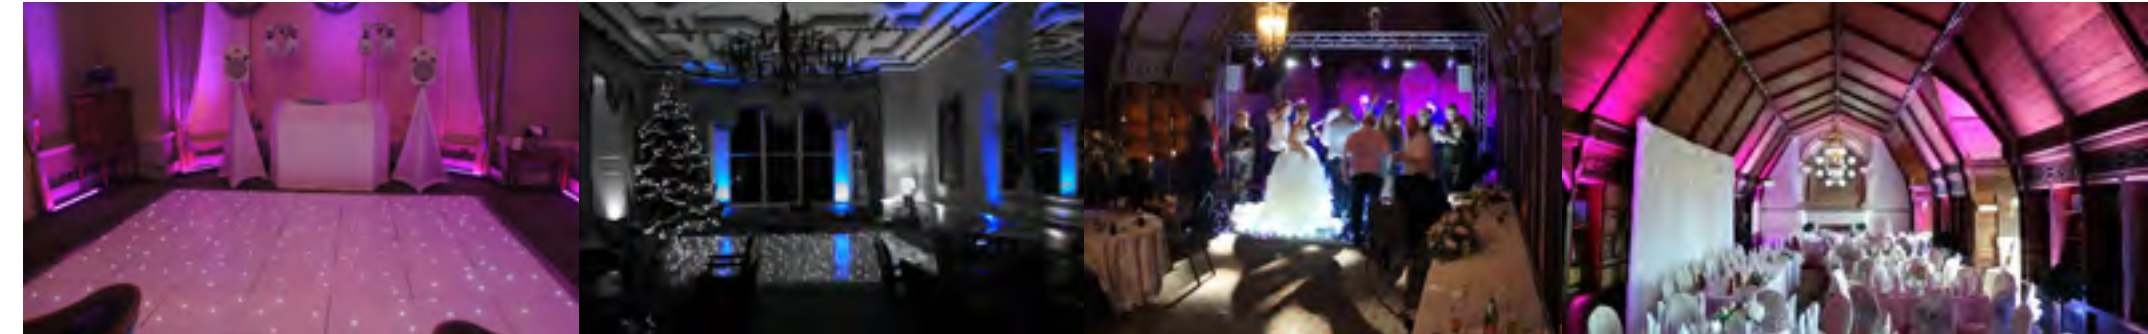

Ettington Park

01386 305 104

White Disco, Dance Floor and Moodlighting

This set up is in the Great Drawing Room which is used for exclusive use weddings. pink moodlighting with a 14' x 16' starlit dance floor and white DJ setup.

Starlit Dance Floor and Moodlighting

This Christmas Wedding couple wanted 20 ice blue moodlighting with the 16' x 16' white starlit dance floor.

Black Dance Floor, Roashow Disco and Moodlighting

This wedding in the Long Gallery at Ettington Park really made use of the space with a 14' x 14' starlit dance floor and roashow disco so that band could share the sound and lighting setup.

Starcloth Backdrop & Moodlighting

In the Long Gallery we put a white starcloth backdrop up behind the top table and pink 14 moodlighting units around the room.

damian@greenclaws.co.uk | 01386 305 104

Compton Verney

Compton Verney is a stunning venue and one we are extremely pleased to be the preferred supplier for.

As Adams Hall is finished in pure white with black and white marble floor, there are many options open to you. Moodlighting works extremely well. The white disco complements the decor of the room as does the white starlit dance floor.

To finish off the transformation I'd suggest the blossom tree arch along with a custom monogram or maybe your name in lights.

Compton Verney
