

Case study

Client: Hyde Homes
Project: Domestic EPC project
Area: London and South East

Carbon Profile are instructed to undertake 100+ domestic EPCs as part of the warmer home initiative.

This involved arranging direct access with tenants, managing visits, producing EPC reports and overall reporting on ratings across all sites.

This is an ongoing project where properties are identified and CP are instructed.

Case study

Client: Camden Council
Project: Domestic EPC project
Area: London and South East

Carbon Profile are instructed to undertake 40+ domestic EPCs on behalf of Camden Council.

This involved arranging direct access with tenants, managing visits, producing EPC reports and overall reporting on ratings across all sites.

In addition, CP have been asked to provide thermal imaging across the blocks where EPCs are undertaken.

This is an ongoing project where properties are identified and CP are instructed.
